CAMPAIGN FUND INVESTIGATION WINDS WEARY WAY

Henry Owen Says the Plan is Twenty Five Years Old

ASKED POSTMASTERS TO CONTRIBUTE

CHICAGO, Sept 9.—Testimony bearing upon Governor Cox's charge that a quota list of 51 cities had been sent out by the Republican national committee was elicited at today's session of the senate committee investigating campaign funds.

While Harry M. Blair, assistant to Fred W. Upham, national Republican treasurer was on the stand, a document was introduced which the witness identified as a substitute for "form 101," the campaign plan which Blair drew up but which was rejected by the national executive committee.

This substitute document stated that an intensive campaign was to be undertaken in 54 cities, and it also indicated that the National Treasurer was to appoint city chairmen of the ways and means committee.

John A. Kelly and G. DeForest Kinney, state ways and means heads for Ohio and Illinois respectively later, said they appointed the local chairmen themselves and that the national treasurer had nothing to do with these selections or with fixing quotas for the various counties.

Mr. Kinney also added that he was concerned only with the campaign outside Chicago and Cook county.

Never Heard of Plan.

In addition Henry Owen a paid assistant to Mr. Blair and organizer for Ohio, Kentucky, Tennessee, West Virginia and Indiana testified that he had never heard of any plan to organize cities as distinctive from the county organizations. He said furthermore that he never saw "form 101" and knew nothing of its being locked in a safe at Republican headquarters after it had been rejected.

Mr. Owen told Senator Spencer that the whole Republican method of raising funds was a "stock plan."

"I can buy it for you in printed form for 25 cents," he added.

"Where?" asked Senator Reed.

"From the International committee of the Y. M. C. A." said the witness. "The plan is known to hundreds of men. It is 25 years old and anything but new."

Other developments included testimony by Mr. Kelly that he fixed the quotas of Ohio counties at double what he expected to raise, but did not inform local chairmen of that fact. On that basis the workers in that state, it was brought out by Senator Pomerene were striving to $1,300,000 instead of the $650,000 which the national committee wanted.

Hoped to Hit Tree Tops.

"We shot at the moon hoping to hit the tree tops,' explained Mr. Kelly.

Mrs. Bertha Baur of Chicago, ways and means vice chairman for Illinois told of the difficulties of raising money among women voters.

"We thought that since women had assumed the privileges of the ballot they ought to assume some of its responsibilities,' she said, "but her figures showed that she had collected $35,367.57 from only five counties in Illinois and that all except 326 had come from Cook county. She said she had tried to appoint vice-chairmen in each of the 101 counties of the state but had succeeded in only 62."

There was one subscription of $2,000 and 13 of $1,000 in Mrs. Baur's list. The $2,000 was received last May from Mrs. John H. Gary, the witness said.

Ask Postmasters to Contribute

At the start of the day session there was evidence that Charles Boeschenstein of Edwardsville, Ill., Democratic national committeeman for the state, had sent letters to postmasters asking voluntary contributions to his party's campaign fund. Five of these addressed to the postmaster at Augusta, Ill., a rural town in Hancock county were given to the committee.

Mr. Blair was on the stand the rest of the morning and at the start of the afternoon session. The Illinois and Ohio chairmen followed, Mr. Kinney's testimony being especially brief.

Mr. Kelly turned in a list showing the quotas pledges and payments from the different counties of Ohio. He said that in some ten counties there were drives for additional funds to be used for county purposes and Senator Reed pointed out that in the case of Toledo and Cleveland these additional drives brought the totals to $100,000 and $400,000 respectively, the amounts named for those places in the Pittsburgh speech of Governor Cox.

ACTUAL WORK TO BEGIN ON DEEP WATERWAY SOON

First Work to be at Marseilles and Starved Rock

PROJECT AGITATED ONE HUNDRED YEARS

SPRINGFIELD, Ill., Sept. 9 — Actual construction work on the Illinois waterway, for which an expenditure of $20,000,000 was authorized in an amendment to the state constitution voted in 1908 will begin the middle of October, it was announced today by Director Frank I. Bennett, of the state department of public works and buildings. The first work will be done at Marseilles and Starved Rock.

Specifications are now being printed. The law requires advertising for four weeks at the end of which time contracts will be let, said Mr. Bennett.

The project, a culmination of over one hundred years of agitation will extend from Rockport on the Desplaines river to LaSalle, on the Illinois river, a distance of 65 miles and will connect approximately 15,000 miles of improved waterways in the Mississippi valley and make continuing navigation possible between the Mississippi and the Great Lakes.

RECEIVERS FOR RAILWAY COMPANY

Kansas City Properties Owe Refining Company Five Million Dollars—Asks for Ten Cent Fare

Kansas City, Mo., Sept 9.—The Kansas City Railways Company was thrown into a receivership late today when Judge Kimberough Stone in the United States district court, granted a petition of the Kansas City Refining Company asking that a receiver be appointed for the company. The petition for the reciver asserts that the company was indebted to the extent of $5,000,000 which it cannot pay and that it owes its men wages, for materials and equipment and owes interest on its bonded indebtedness.

The petition added that such increases in fare as have been granted by the Missouri Public Service Commission have been insufficient for the company to operate at a profit.

The company is now collecting an eight cent fare and has asked for 10 cents.

COX MAKES PLEDGE TO PRESENT IRISH CAUSE TO LEAGUE

Will be Duty if He is Elected Says Candidate

AGAIN SAYS SLUSH FUND CHARGES PROVED

BUTTE, Mont., Sept. 9.—A definite pledge to "present the Irish cause" to the league of nations in event of his election and further vigorous attacks on Republican leaders and that party's contributions were made here tonight by Governor Cox of Ohio in closing his Montana campaign.

In three extensive speeches today, at Helena, Anaconda and Butte and in a half dozen rear platform talks enroute the Democratic presidential candidate concluding the first week of his western tour, hammered the league, the Republican "corruption fund" an dlabor issues into his audiences.

The Irish question developed at th egovernor's meeting here in front of the court house lawn.

Would Present Irish Cause

"It will be my duty," he said, "and very quickly availed of, as a friend of peace, asserting the friendly right of any member of the league, to present the Irish cause to the attention of the league under the authority given by Article Eleven and give to Ireland or to any other aggrieved people the opportunity to plead their case before the bar of civilized opinion."

Dealing with testimony before the senatorial investigating committee at Chicago, Governor Cox made fresh assaults upon Will H. Hays, Republican national chairman, Treasurer Upha mand his assistant, Henry M. Blair. The governor declared that the Chicago testimony had confirmed his "slush fund" charges, on the heels of denials by Chairman Hays and other Republican officials.

His fund of arguments on the league, settlement of strikes by the golden rule instead of bayonets, and progressivism were given by the governor. He also reiterated attacks upon Senator Harding, his Republican opponent, the "senatorial oligarchy" and "big business."

Urges Reclamation

At Helena he also urged reclamation development. Thru the league, the candidate said, material prosperity would be had by creating foreign markets for copper and other products of mine, farm and labor, when European conditions become stabilized.

The Irish question, Governor Cox said, needs settlement to promote peace between the English speaking races and read Article Eleven of the league covenant, providing for consideration by the league council or assembly of any international question whatsoever, "which threaten to disturb either the peace or the good understanding between nations."

Governor Cox said that under existing conditions the Irish question could not be presented to the bar of public opinion.

"Under the league it can," he continued. "We have four times as many people of Gaelic blood in the United States as there are in Ireland, and their natural feelings not only figure in our domestic relations but also stand like granite between the stretching hands of England and America. So long therefore, as the Irish question remains unsettled, there will be some conflict in America with the idea of world wide co-operation between the English speaking nations."

Orange Colored Spots On Wharf Cat Leads to Recovery of Dyes

NEWARK, N. J., Sept. 9.—Methods attributed to the scientific detective in modern tales of mystery as applied to chemical analysis of orange colored spots on a water front cat, brought recovery of $300,000 worth of stolen German dyes and the arrest of 17 men, the department of justice bureau here announced today.

Government sleuths assigned to solve the mystery of who held up the watchmen at a state department warehouse in Hoboken, where 6,000 pounds of German dyes as part of Germany's indemnity were being held and carted the dyestuffs away in motor trucks, had been at owrk on the case for weeks. Suddenly attention was attacted by the strange orange color of spots on a wharf cat.

Following what amounted to an inspiration , a department of justice agent caught the cat and took it to a chemist where its orange hair was analyzed with the discovery, it was stated, that German dyes were responsible for its unique color.

The cat was then released and shadowed. Its "home" was said to have been loacted in a house on River street, Hoboken. This house was watched for a long time

Last week, as a result of shadowing visitors to the River street house, department of justice agents said they had recovered 3,000 pounds of the stolen dyes on a motor truck in Paterson, and 3,000 pounds more in a Brooklyn warehouse. Arrests followed by twos and threes almost immediately afterward, it was stated.

Arrests in the case were announced as having Christian Miller, Richard O'Connor and Joseph Hoskins, the last named said to be known as Scranton Joe, in Hoboken, all in Paterson; Jacob Widder and George Davis, of a Brooklyn dye and chemical company who now are held by a United States comissioner in $5,000 bail each, charged with conspiracy to receive stolen goods; and Adolph Widder and Samuel Weiss, of the same firm, in Chicago upon telegraphic advices from Newark.

DE VALERA MAY BE MEANS OF BREAKING IRISH HUNGER STRIKE

Rumored He Will Cable MacSwiney to Break Fast

SEAN HENNESSY STILL UNCONSCIOUS

CORK, Sept. 9.—In view of the firm stand the government appears to be maintaining in face of the appeals for the release of the hunger strikers, a report has started in Cork that the last minute intervehtion may come from Eamonn DeValera, president of the Irish Republic.

According to this rumor, the source of which cannot be ascertained, de Valera is expected to cable Lord Mayor MacSwiney that his life is too valuable to the Irish cause to sacrifice and ordering him to break his fast.

The belief seems to prevail here that if this were done MacSwiney would be released immediately and that the discharge of the Cork prisoners would quickly follow.

Sean Hennesy, a 19-year-old hunger striker, was still unconscious this afternoon. His father continues to refuse to call in a doctor to attend him. The other prisoners were weaker today, but are said to be determined to hold out.

SENATOR LODGE SAYS ARTICLE TEN INDIVIDUAL PLEDGE

Could Compel United States to Guarantee Integrity

REPRESENTATIVE MAY COMMIT COUNTRY

AUGUSTA, Me., Sept. 9.—An attack on Article X of the covenant of the league of nations was made in an address here tonight by Senator Lodge of Massachusetts.

Senator Lodge reiterated the charge that "the pledge in the first sentence of Article X is an individual pledge of the United States to 'respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league.'"

"The only allusion to the league in Article X" he said, "is in the second sentence and the operation of the league is there confined to advising what share each of the nations should take in sustaining the guarante.

"But this is not all. A great deal is made of the unanimity required on most questions for action by the council and it is therefore argued that our single vote will serve as a veto. Theoretically that seems conclusive, but in practice if we were represented in the league it would be impossible to say that our representative acting under the instructions of the president alone might commit us to."

FOUR LABOR LEADERS SERVING SENTENCES

MINNEAPOLIS, Minn., Sept. 9.—Accepting jail sentences in preference to fines of $125 each, four prominent labor leaders of Minneapolis were placed in the county jail tonight to start serving setnences of six months each for contempt of court. The four are Dan W. Steevns, president of the Minneapolis Trades and Labor Assembly; Leslie Stinton, its secretary; Lynn W. Thompson, organizer and R D. Cramer, editor of the Labor Review. The contempt action grew out of a court injunction restraining the four and others from interfering with the business of a local theatre.

THREE WORKERS DIE WHILE TRYING TO RESCUE VICTIMS

Three Workers Are Crushed Under Falling Wall

PEASANTS ATTACK AND KILL ROBBER

FLORENCE ,Sept. 9.—(By The Associated Press.)—Already some of those working bravely to rescue and help the sufferers from the earthquake have been killed. At Fivizzano three men, including a carabiner were trying to move masonry from behind which they heard the groans of some one imprisoned when a near shock occurred, the wall falling on all three and crushing them in sight of the onlookers.

When the first earthquake occurred the prison at Fivizzano was badly shaken, the doors being wrenched from their fastenings. The inmates rushed out, declaring that they would at least die in the open .But when the shocks had passed carabiners compelled them to return to their cells, with the exception of one man who slipped away and later was found at the neighboring station of Gragnola engaged in the robbery of those seriously injured lying in a special train waiting for transport to a hospital. With difficulty the carabiners saved him from the angry crowds which gathered.

Robber Is Killed.

During the night while others were engaged in the work of rescue determined attempt was made to carry off the strong box of the savings bank of Fivizzano. One of the thieves was attacked by peasants and before the soldiers could rescue him he received injuries from which he died.

Two women living near the barracks climbed out of a window to a balcony when the first shock occurred. All the floors of their house collapsed and for more than two hours they remained on the balcony which was in such a threatening state that it was impossible to scale the wall. Finally they were rescued by means of ropes.

WILL BE NO CHANGE IN MINERS' VACATION

Leaders Say President Must Make Answer to Request to Reopen Wage Scale—Trying to Tie up Entire District.

Scranton, Pa., Sept. 9.—That there will be no change in the miners' "vacation" thruout the anthracite field until such time as President Wilson or Secretary of Labor Wilson makes definite answer to the request of the general scale committee of the miners union for an immediate re-opening of the case was stated today by leaders of the organization in the three districts comprising the anthracite field.

The situation in the Scranton district is not changed from yesterday, it was stated by union leaders today. FRANK E. DOREMUS ISSUES STATEMENT ON HARDING SPEECH

Says Senator is Trying to Cover Up Remarks of 1917

ACCUSES CANDIDATE OF SIDESTEPPING

CHICAGO, Sept. 9.—Congressman Frank E. Doremus, chairman of the central western headquarters of the Democratic National committee today issued the following statement on Senator Harding's speech at the Minneapolis state fair grounds yesterday:

"Senator Harding's St. Paul speech was an adroit effort to placate farmers who remembered what he said when the bill for two dollar wheat was on its passage. He said then, and he does not undertake to deny it now, that 'dollar wheat makes a very profitable occupation' and that 'if the qualities of American patriotism are such that we must guarantee the American farmer a price for his wheat in the face of world famine, then there is not patriotism enough in this country to win the war.'

"Senator Harding said at that time, as the congressional record for July 19, 1917, shows, that it would be agreeable to him to strike at 'the manifest greed in some agricultural sections.' But he now sidesteps by declaring that no public servant would dare to say he believed in dollar wheat 'amid the price which is prevailing today.'

"When the senator made that speech the United States was at war. The farmer was worse off for labor by far than he is now. If Senator Harding thought dollar wheat was profitable then and the demand for two dollar wheat was greedy, he will have difficulty in explaining it away now to the hard headed farmer of the wheat belt."

BOLSHEVIKI ARE HOLDING HOSTAGES

Reported to Be Holding Austrian Officers—Forbid Grinding of Grain Until After Sowing of Grain in Autumn.

Washington, Sept. 9.—The trials of Hungarian Bolsheviki in Vienna have led to reprisals in Soviet Russia the state department was informed today in dispatches from Baltic sources. Ten prominent Ausrian officers are being held as personal hostages and 1,000 more Austrian officers have been imprisoned in a centration camp the dispatches said.

Distribution of grain in soviet Russia will take place "in accordanec with fixed class distinctions,' the state department has ben advised also from Baltic sources. Bolsheviki authorities have taken charge of grain warehouses and have stationed sentries at the mills to prevent peasants from stealing or seizing goods from the mills. The Bolsheviki have forbidden grinding of grain under penalty of capital punishment and have decreed there should be no grinding done until after the sowing of grain in the autumn.

MEXICAN RAILROAD STRIKE SETTLED

MEXICO CITY, Sept. 9—A railroad strike which virtually stopped traffic on the national lines for eight hours yesterday was settled last evening when Provisional President de la Huerta granted three of the four demands presented by the strikers. It is expected train operations thruout the republic will be normal today.

The strikers secured recognition of the engineers' and firemen's union, with a 75 per cent wage increase; a promise that all pending wage disputes would be adjusted and an agreement that the expenses of delegates to the recent railway men's convention here would be paid. The provisional president refused to accede to the demand for the removal of Francisco Perez, who was recently named general of the national lines.

CHAMPAIGN AND KANKAKEE IGNORED BY RECENT RAINS

Springfield, Ill., Sept. 9.—Kankakee and Champaign were entirely ignored by the big rain which fell in Illinois in the twenty-four hours ending at 7 o'clock this morning. HARDING PLEASED WITH RESULT OF MINNESOTA TRIP

Gen. Pershing Guest of Nominee as Far as Marion

PLANS BUSY DAY FRIDAY AT MARION

MARION, Ohio, Sept. 9.—Senator Harding returned to Marion tonight from his first campaign trip and prepared to resume a front porch campaign which is expected to keep him here during the remainder of September.

Both the nominee and his political managers declared themselves greatly pleased at the practical results of the three day journey and it was indicated that announcement might be made soon of other trips for the last month of the campaign. On the return today from Minnesota where the principal address of the trip was made yesterday at the state fair grounds, the senator made two more rear platform speeches. The first was at Janesville, Wis., where he lauded the influence of the small town in maintaining national tranquility. The other, a plea that the nation be put back on the right track was delivered to a chering crowd of several hundred at Rochester, Ind.

Pershing Rides With Harding.

In all during the trip Senator Harding made eight speeches, four of them from the platform of his private car. Besides he shook hands with hundreds who crowded around him at the way stations and during his visit to the Twin Cities of Minnesota, General John J. Pershing joined the senator's party at Chicago today and during the afternoon trip across Indiana and Ohio shared some of the popular applause with the nominee.

On his way back to Washington from a vacation in the west the general called at the Harding car to pay his respects during a short stop in Chicago and Senator Harding insisted that he go along as far as Marion. He spent several hours in conversation with the nominee, but insisted that no political significance should be attached to his presence.

Reception On Train.

From Chicago east the senator's private car was attached to a regular passenger train and as it approached Marion the nominee and General Pershing went into the dining car and held a public reception during which scores of the passengers filed in to shake hands with their two distinguished fellow travelers. The general spent the night at the Harding home here and will resume his journey to Washington tomorrow.

Several front porch speeches will be made by Senator Harding during the remainder of the next three weeks and his next speaking trip is expected to begin about the first of October. It is understood that his visit to New York will be made during the last part of that month on a date yet to be fixed, but the question of what other cities will be included in his schedule has not been decided.

Tomorrow he will speak here to several delegations of negroes from Philadelphia, Indianapolis, Columbus and other cities.

CAMPAIGN FUND INVESTIGATION WINDS WEARY WAY

Henry Owen Says the Plan is Twenty Five Years Old

ASKED POSTMASTERS TO CONTRIBUTE

CHICAGO, Sept 9.—Testimony bearing upon Governor Cox's charge that a quota list of 51 cities had been sent out by the Republican national committee was elicited at today's session of the senate committee investigating campaign funds.

While Harry M. Blair, assistant to Fred W. Upham, national Republican treasurer was on the stand, a document was introduced which the witness identified as a substitute for "form 101," the campaign plan which Blair drew up but which was rejected by the national executive committee.

This substitute document stated that an intensive campaign was to be undertaken in 54 cities, and it also indicated that the National Treasurer was to appoint city chairmen of the ways and means committee.

John A. Kelly and G. DeForest Kinney, state ways and means heads for Ohio and Illinois respectively later said they appointed the local chairmen themselves and that the national treasurer had nothing to do with these selections or with fixing quotas for the various counties.

Mr. Kinney also added that he was concerned only with the campaign outside Chicago and Cook county.

Never Heard of Plan.

In addition Henry Owen a paid assistant to Mr. Blair and organizer for Ohio, Kentucky, Tennessee, West Virginia and Indiana testified that he had never heard of any plan to organize cities as distinctive from the county organizations. He said furthermore that he never saw "form 101" and knew nothing of its being locked in a safe at Republican headquarters after it had been rejected.

Mr. Owen told Senator Spencer that the whole Republican method of raising funds was a "stock plan."

"I can buy it for you in printed form for 25 cents," he added.

"Where?" asked Senator Reed.

"From the International committee of the Y. M. C. A." said the witness. "The plan is known to hundreds of men. It is 25 years old and anything but new."

Other developments included testimony by Mr. Kelly that he fixed the quotas of Ohio counties at double what he expected to raise, but did not inform local chairmen of that fact. On that basis the workers in that state, it was brought out by Senator Pomerene were striving to $1,300,000 instead of the $650,000 which the national committee wanted.

Hoped to Hit Tree Tops.

"We shot at the moon hoping to hit the tree tops,' explained Mr. Kelly.

Mrs. Bertha Baur of Chicago, ways and means vice chairman for Illinois told of the difficulties of raising money among women voters.

"We thought that since women had assumed the privileges of the ballot they ought to assume some of its responsibilities,' she said, "but her figures showed that she had collected $35,367.57 from only five counties in Illinois and that all except 326 had come from Cook county. She said she had tried to appoint vice-chairmen in each of the 101 counties of the state but had succeeded in only 62."

There was one subscription of $2,000 and 13 of $1,000 in Mrs. Baur's list. The $2,000 was received last May from Mrs. John H. Gary, the witness said.

Ask Postmasters to Contribute

At the start of the day session there was evidence that Charles Boeschenstein of Edwardsville, Ill., Democratic national committeeman for the state, had sent letters to postmasters asking voluntary contributions to his party's campaign fund. Five of these addressed to the postmaster at Augusta, Ill., a rural town in Hancock county were given to the committee.

Mr. Blair was on the stand the rest of the morning and at the start of the afternoon session. The Illinois and Ohio chairmen followed, Mr. Kinney's testimony being especially brief.

Mr. Kelly turned in a list showing the quotas pledges and payments from the different counties of Ohio. He said that in some ten counties there were drives for additional funds to be used for county purposes and Senator Reed pointed out that in the case of Toledo and Cleveland these additional drives brought the totals to $100,000 and $400,000 respectively, the amounts named for those places in the Pittsburgh speech of Governor Cox.

ACTUAL WORK TO BEGIN ON DEEP WATERWAY SOON

First Work to be at Marseilles and Starved Rock

PROJECT AGITATED ONE HUNDRED YEARS

SPRINGFIELD, Ill., Sept. 9 — Actual construction work on the Illinois waterway, for which an expenditure of $20,000,000 was authorized in an amendment to the state constitution voted in 1908 will begin the middle of October, it was announced today by Director Frank I. Bennett, of the state department of public works and buildings. The first work will be done at Marseilles and Starved Rock.

Specifications are now being printed. The law requires advertising for four weeks at the end of which time contracts will be let, said Mr. Bennett.

The project, a culmination of over one hundred years of agitation will extend from Rockport on the Desplaines river to LaSalle, on the Illinois river, a distance of 65 miles and will connect approximately 15,000 miles of improved waterways in the Mississippi valley and make continuing navigation possible between the Mississippi and the Great Lakes.

RECEIVERS FOR RAILWAY COMPANY

Kansas City Properties Owe Refining Company Five Million Dollars—Asks for Ten Cent Fare

Kansas City, Mo., Sept 9.—The Kansas City Railways Company was thrown into a receivership late today when Judge Kimberough Stone in the United States district court, granted a petition of the Kansas City Refining Company asking that a receiver be appointed for the company. The petition for the reciver asserts that the company was indebted to the extent of $5,000,000 which it cannot pay and that it owes its men wages, for materials and equipment and owes interest on its bonded indebtedness.

The petition added that such increases in fare as have been granted by the Missouri Public Service Commission have been insufficient for the company to operate at a profit.

The company is now collecting an eight cent fare and has asked for 10 cents.

COX MAKES PLEDGE TO PRESENT IRISH CAUSE TO LEAGUE

Will be Duty if He is Elected Says Candidate

AGAIN SAYS SLUSH FUND CHARGES PROVED

BUTTE, Mont., Sept. 9.—A definite pledge to "present the Irish cause" to the league of nations in event of his election and further vigorous attacks on Republican leaders and that party's contributions were made here tonight by Governor Cox of Ohio in closing his Montana campaign.

In three extensive speeches today, at Helena, Anaconda and Butte and in a half dozen rear platform talks enroute the Democratic presidential candidate concluding the first week of his western tour, hammered the league, the Republican "corruption fund" an diabor issues into his audiences.

The Irish question developed at th egovernor's meeting here in front of the court house lawn.

Would Present Irish Cause

"It will be my duty," he said, "and very quickly availed of, as a friend of peace, asserting the friendly right of any member of the league, to present the Irish cause to the attention of the league under the authority given by Article Eleven and give to Ireland or to any other aggrieved people the opportunity to plead their case before the bar of civilized opinion."

Dealing with testimony before the senatorial investigating committee at Chicago, Governor Cox made fresh assaults upon Will H. Hays, Republican national chairman, Treasurer Upha mand his assistant, Henry M. Blair. The governor declared that the Chicago testimony had confirmed his "slush fund" charges, on the heels of denials by Chairman Hays and other Republican officials.

His fund of arguments on the league, settlement of strikes by the golden rule instead of bayonets, and progressivism were given by the governor. He also reiterated attacks upon Senator Harding, his Republican opponent, the "senatorial oligarchy" and "big business."

Urges Reclamation

At Helena he also urged reclamation development. Thru the league, the candidate said, material prosperity would be had by creating foreign markets for copper and other products of mine, farm and labor, when European conditions become stabilized.

The Irish question, Governor Cox said, needs settlement to promote peace between the English speaking races and read Article Eleven of the league covenant, providing for consideration by the league council or assembly of any international question whatsoever, "which threaten to disturb either the peace or the good understanding between nations."

Governor Cox said that under existing conditions the Irish question could not be presented to the bar of public opinion.

"Under the league it can," he continued. "We have four times as many people of Gaelic blood in the United States as there are in Ireland, and their natural feelings not only figure in our domestic relations but also stand like granite between the stretching hands of England and America. So long therefore, as the Irish question remains unsettled, there will be some conflict in America with the idea of world wide co-operation between the English speaking nations."

WANT INVESTIGATION OF WOMAN'S DEATH

Chicago, Sept. 9—The Chicago families of two women who died under mysterious circumstances after marrying Ernest Ewald Steinhouse, a chiropodist, who formerly lived here, joined today in asking Chief of Detectives Mooney to investigate the recent death of the second Mrs. Steinhouse, who was found dead a wek ago in a swamp near her home in Tampa, Fla. Reports from Tampa indicate that Mrs. Steinhouse was dead before her body was placed in the swamp.

BRITISH SUBJECT HAS ESCAPED FROM BANDITS

Mexico City, Sept. 9.—Bertie C. Johnson, a British subject who was kidnapped by Pedro Zamora at Autlan on August 10, has escaped from the bandits and is on his way to Guadalajara under escort of government troops, it was announced at the war department last night. W. A Gardiner, an American citizen, who also was a captive of Zamora has arrived at Talpa, state of Jlisco, on his way to Guadalajara.

Orange Colored Spots On Wharf Cat Leads to Recovery of Dyes

NEWARK, N. J., Sept. 9.—Methods attributed to the scientific detective in modern tales of mystery as applied to chemical analysis of orange colored spots on a water front cat, brought recovery of $300,000 worth of stolen German dyes and the arrest of 17 men, the department of justice bureau here announced today.

Government sleuths assigned to solve the mystery of who held up the watchmen at a state department warehouse in Hoboken, where 6,000 pounds of German dyes as part of Germany's indemnity were being held and carted the dyestuffs away in motor trucks, had been at owrk on the case for weeks. Suddenly attention was attacted by the strange orange color of spots on a wharf cat.

Following what amounted to an inspiration , a department of justice agent caught the cat and took it to a chemist where its orange hair was analyzed with the discovery, it was stated, that German dyes were responsible for its unique color.

The cat was then released and shadowed. Its "home" was said to have been loacted in a house on River street, Hoboken. This house was watched for a long time

Last week, as a result of shadowing visitors to the River street house, department of justice agents said they had recovered 3,000 pounds of the stolen dyes on a motor truck in Paterson, and 3,000 pounds more in a Brooklyn warehouse. Arrests followed by twos and threes almost immediately afterward, it was stated.

Arrests in the case were announced as having Christian Miller, Richard O'Connor and Joseph Hoskins, the last named said to be known as Scranton Joe, in Hoboken, all in Paterson; Jacob Widder and George Davis, of a Brooklyn dye and chemical company who now are held by a United States comissioner in $5,000 bail each, charged with conspiracy to receive stolen goods; and Adolph Widder and Samuel Weiss, of the same firm, in Chicago upon telegraphic advices from Newark.

DE VALERA MAY BE MEANS OF BREAKING IRISH HUNGER STRIKE

Rumored He Will Cable MacSwiney to Break Fast

SEAN HENNESSY STILL UNCONSCIOUS

CORK, Sept. 9.—In view of the firm stand the government appears to be maintaining in face of the appeals for the release of the hunger strikers, a report has started in Cork that the last minute intervention may come from Eamonn DeValera, president of the Irish Republic.

According to this rumor, the source of which cannot be ascertained, de Valera is expected to cable Lord Mayor MacSwiney that his life is too valuable to the Irish cause to sacrifice and ordering him to break his fast.

The belief seems to prevail here that if this were done MacSwiney would be released immediately and that the discharge of the Cork prisoners would quickly follow.

Sean Hennesy, a 19-year-old hunger striker, was still unconscious this afternoon. His father continues to refuse to call in a doctor to attend him. The other prisoners were weaker today, but are said to be determined to hold out.

SENATOR LODGE SAYS ARTICLE TEN INDIVIDUAL PLEDGE

Could Compel United States to Guarantee Integrity

REPRESENTATIVE MAY COMMIT COUNTRY

AUGUSTA, Me., Sept. 9.—An attack on Article X of the covenant of the league of nations was made in an address here tonight by Senator Lodge of Massachusetts.

Senator Lodge reiterated the charge that "the pledge in the first sentence of Article X is an individual pledge of the United States to 'respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league.'"

"The only allusion to the league in Article X" he said, 'is in the second sentence and the operation of the league is there confined to advising what share each of the nations should take in sustaining the guarante.

"But this is not all. A great deal is made of the unanimity required on most questions for action by the council and it is therefore argued that our single vote will serve as a veto. Theoretically that seems conclusive, but in practice if we were represented in the league it would be impossible to say that our representative acting under the instructions of the president alone might commit us to."

FOUR LABOR LEADERS SERVING SENTENCES

MINNEAPOLIS, Minn., Sept. 9.—Accepting jail sentences in preference to fines of $125 each, four prominent labor leaders of Minneapolis were placed in the county jail tonight to start serving setnences of six months each for contempt of court. The four are Dan W. Steevns, president of the Minneapolis Trades and Labor Assembly; Leslie Stinton, its secretary; Lynn W. Thompson, organizer and R. D. Cramer, editor of the Labor Review. The contempt action grew out of a court injunction restraining the four and others from interfering with the business of a local theatre.

THREE WORKERS DIE WHILE TRYING TO RESCUE VICTIMS

Three Workers Are Crushed Under Falling Wall

PEASANTS ATTACK AND KILL ROBBER

FLORENCE ,Sept. 9.—(By The Associated Press.)—Already some of those working bravely to rescue and help the sufferers from the earthquake have been killed. At Fivizzano three men, including a carabiner were trying to move masonry from behind which they heard the groans of some one imprisoned when a near shock occurred, the wall falling on all three and crushing them in sight of the onlookers.

When the first earthquake occurred the prison at Fivizzano was badly shaken, the doors being wrenched from their fastenings. The inmates rushed out, declaring that they would at least die in the open .But when the shocks had passed carabiners compelled them to return to their cells, with the exception of one man who slipped away and later was found at the neighboring station of Gragnola engaged in the robbery of those seriously injured lying in a special train waiting for transport to a hospital. With difficulty the carabiners saved him from the angry crowds which gathered.

Robber Is Killed.

During the night while others were engaged in the work of rescue determined attempt was made to carry off the strong box of the savings bank of Fivizzano. One of the thieves was attacked by peasants and before the soldiers could rescue him he received injuries from which he died.

Two women living near the barracks climbed out of a window to a balcony when the first shock occurred. All the floors of their house collapsed and for more than two hours they remained on the balcony which was in such a threatening state that it was impossible to scale the wall. Finally they were rescued by means of ropes.

WILL BE NO CHANGE IN MINERS' VACATION

Leaders Say President Must Make Answer to Request to Reopen Wage Scale—Trying to Tie up Entire District.

Scranton, Pa., Sept. 9.—That there will be no change in the miners' "vacation" thruout the anthracite field until such time as President Wilson or Secretary of Labor Wilson makes definite answer to the request of the general scale committee of the miners union for an immediate re-opening of the case was stated today by leaders of the organization in the three districts comprising the anthracite field.

The situation in the Scranton district is not changed from yesterday, it was stated by union leaders today. The insurgents headed by Enoch Williams of Taylor opened headquarters this morning in the central labor union building in this city and it is announced by the executive committee that every effort is being made to bring about a complete tieup in this district.

FRANK E. DOREMUS ISSUES STATEMENT ON HARDING SPEECH

Says Senator is Trying to Cover Up Remarks of 1917

ACCUSES CANDIDATE OF SIDESTEPPING

CHICAGO, Sept. 9.—Congressman Frank E. Doremus, chairman of the central western headquarters of the Democratic National committee today issued the following statement on Senator Harding's speech at the Minneapolis state fair grounds yesterday:

"Senator Harding's St. Paul speech was an adroit effort to placate farmers who remembered what he said when the bill for two dollar wheat was on its passage. He said then, and he does not undertake to deny it now, that 'dollar wheat makes a very profitable occupation' and that 'the qualities of American patriotism are such that we must guarantee the American farmer a price for his wheat in the face of world famine, then there is not patriotism enough in this country to win the war.'

"Senator Harding said at that time, as the congressional record for July 19, 1917, shows, that it would be agreeable to him to strike at 'the manifest greed in some agricultural sections.' But he now sidesteps by declaring that no public servant would dare to say he believed in dollar wheat 'amid the price which is prevailing today.'

"When the senator made that speech the United States was at war. The farmer was worse off for labor by far than he is now. If Senator Harding thought dollar wheat was profitable then and the demand for two dollar wheat was greedy, he will have difficulty in explaining it away now to the hard headed farmer of the wheat belt."

BOLSHEVIKI ARE HOLDING HOSTAGES

Reported to Be Holding Austrian Officers—Forbid Grinding of Grain Until After Sowing of Grain in Autumn.

Washington, Sept. 9.—The trials of Hungarian Bolsheviki in Vienna have led to reprisals in Soviet Russia the state department was informed today in dispatches from Baltic sources. Ten prominent Ausrian officers are being held as personal hostages and 1,000 more Austrian officers have been imprisoned in a centration camp the dispatches said.

Distribution of grain in soviet Russia will take place "in accordanec with fixed class distinctions,' the state department has ben advised also from Baltic sources. Bolsheviki authorities have taken charge of grain warehouses and have stationed sentries at the mills to prevent peasants from stealing or seizing goods from the mills. The Bolsheviki have forbidden grinding of grain under penalty of capital punishment and have decreed there should be no grinding done until after the sowing of grain in the autumn.

MEXICAN RAILROAD STRIKE SETTLED

MEXICO CITY, Sept. 9—A railroad strike which virtually stopped traffic on the national lines for eight hours yesterday was settled last evening when Provisional President de la Huerta granted three of the four demands presented by the strikers. It is expected train operations thruout the republic will be normal today.

The strikers secured recognition of the engineers' and firemen's union, with a 75 per cent wage increase; a promise that all pending wage disputes would be adjusted and an agreement that the expenses of delegates to the recent railway men's convention here would be paid. The provisional president refused to accede to the demand for the removal of Francisco Perez, who was recently named general of the national lines.

CHAMPAIGN AND KANKAKEE IGNORED BY RECENT RAINS

Springfield, Ill., Sept. 9.—Kankakee and Champaign were entirely ignored by the big rain which fell in Illinois in the twenty-four hours ending at 7 o'clock this morning. A downfall varying in amount from nearly three inches to .34 of an inch at Peoria, and .36 at Decatur covered whole state, excepting a few isolated areas. It is expected to benefit corn, altho most corn, the Weather Bureau says, is to mature for improvement.

RUSSIAN REFUGEE CHILD SHOT BY GUARD

New York, Sept. 9.—Paul Nikolaeff, 14, and one of 800 Russian refugee children being mothered by the Red Cross at Fort Wadsworth, Staten Island, on their long journey from Siberia to their Petrograd homes was shot and killed early today while instructed in the army's manual of arms by a friendly soldier on guard duty. This announcement was made at noon by Red Cross officials.

HARDING PLEASED WITH RESULT OF MINNESOTA TRIP

Gen. Pershing Guest of Nominee as Far as Marion

PLANS BUSY DAY FRIDAY AT MARION

MARION, Ohio, Sept. 9.—Senator Harding returned to Marion tonight from his first campaign trip and prepared to resume a front porch campaign which is expected to keep him here during the remainder of September.

Both the nominee and his political managers declared themselves greatly pleased at the practical results of the three day journey and it was indicated that announcement might be made soon of other trips for the last month of the campaign. On the return today from Minnesota where the principal address of the trip was made yesterday at the state fair grounds, the senator made two more rear platform speeches. The first was at Janesville, Wis., where he lauded the influence of the small town in maintaining national tranquility. The other, a plea that the nation be put back on the right track was delivered to a chering crowd of several hundred at Rochester, Ind.

Pershing Rides With Harding.

In all during the trip Senator Harding made eight speeches, four of them from the platform of his private car. Besides he shook hands with hundreds who crowded around him at the way stations and during his visit to the Twin Cities of Minnesota, General John J. Pershing joined the senator's party at Chicago today and during the afternoon trip across Indiana and Ohio shared some of the popular applause with the nominee.

On his way back to Washington from a vacation in the west the general called at the Harding car to pay his respects during a short stop in Chicago and Senator Harding insisted that he go along as far as Marion. He spent several hours in conversation with the nominee, but insisted that no political significance should be attached to his presence.

Reception On Train.

From Chicago east the senator's private car was attached to a regular passenger train and as it approached Marion the nominee and General Pershing went into the dining car and held a public reception during which scores of the passengers filed in to shake hands with their two distinguished 'fellow travelers. The general spent the night at the Harding home here and will resume his journey to Washington tomorrow.

Several front porch speeches will be made by Senator Harding during the remainder of the next three weeks and his next speaking trip is expected to begin about the first of October. It is understood that his visit to New York will be made during the last part of that month on a date yet to be fixed, but the question of what other cities will be included in his schedule has not been decided.

Tomorrow he will speak here to several delegations of negroes from Philadelphia, Indianapolis, Columbus and other cities.

Gov. Cox is quite sure that Chairman Hays of the national Republican committee has conducted himself improperly and should be dismissed. Probably Mr. Cox thinks the Republican chairman should never have been appointed in the first place.

Authorities are arranging to have two deputy sheriffs on duty in each polling precinct in Chicago for the election next Tuesday. This will mean an additional army of 5,000 men. However, the way in which the campaign is warming up indicates that the services of these men may be needed.

There is no denying that more than the usual amount of feeling has been injected into the present state campaign within the Republican party. But in recent days a number of newspapers have been urging readers to choose the best candidates regardless of factions or alignments.

This is important, but of even still greater importance is to "get over" the primary contest feeling, and work together for the election of those candidates who are successful next Wednsday. Republicans have in the past given evidence of their ability to bury differences and work for the common cause, and they will follow that wise course again.

One of the big little questions before the Methodist ministers assembled at Decatur relates to "entertainment" for conference delegates. Each year there is increasing support for the plan of housing all delegates at hotels instead of having them entertained at private homes.

There is much to be said in favor of the new idea and its adoption would increase the independence of the ministers.

It is pleasing to note that some consumers have figured out that there is no need to worry now about fuel shortage this winter. They are basing this good feeling on recent statistics, which show that transportation efficiency is rapidly increasing. This, they say, is because the railroad managers are loading cars more heavily and moving them more rapidly. Let us hope.

HAVE FAITH IN JACKSONVILLE

It is an interesting commentary on the present feeling in Jacksonville that there is a good demand for water supply bonds. These bonds, it will be remembered, were issued against the lands which the citizens purchased to make the construction of Lake Mauvaisterre possible.

The city by ordinance is setting aside in monthly installments a fund for the payment of the principal and the semi-annual interest. The bonds draw 6% interest. While other paper is available today paying 7 or 7½ per cent, still a number of transactions in water bonds have been recorded in the last two weeks and inquiries have been made thru local banks from prospective purchasers.

That the bonds are in demand gives proof of the success of the water project and further is an evidence of the faith that Jacksonville people have in their city.

UNKEPT PROMISES

The Democratic party pledged itself to a reduction of what it denounced as the extravagance of the previous Republican administration. Instead of reducing expenditures the Government appropriations were greatl increased with the result that war taxes became necessary long before the United States entered the war or before preparatioon for war was begun. So pronounced was this increase of expenditures that the president found it necessary to attempt an excuse by asserting that the people of the country care not how much money is spent provided that they get what they want in return.

Preservation of the ... tem in public appointments and efficiency in the public service were other pledges which were remembered only to be broken. Merit never had smaller place in the public service and entangling red tape never before so greatly hindered the transaction of public business.

"Pitiless publicity" was another pledge given to the American people during the campaign of 1912, but there has never been a Federal administration so secretive as that which is now in control. The single term pledge and numerous others that might be mentioned, serve as further instances of the kind of "fidelity" with which the Demorcatic party has kept its pledges.

In view of all this record which is still fresh in the minds of the American people it will be vain for the Democratic campaign managers to hope that they can win the confidence of the American people now by pledging fulfillment of promises with the same fidelity they have observed in the past.

DETERMINATION

Jonah said he'd bet some kale he could travel in a whale. All the village sports were shocked and they joshed him and they mocked. "No one ever yet," they cried, "journeyed in a whale's inside. It would be all kinds of fun, but, alas, it can't be done. For the fish's throat's so small it can't bolt big things at all; even if you got inside you'd be smothered soon," they cried; "you could not the trip endure, for the ventilation's poor." "That's the way all tinhorns spiel," answered Jonah, off the reel; "just because no other male ever traveled in a whale, you insist it can't be did, but I'll bet my Sabbath lid that I'll pull the stunt ere long, just to show you're all in wrong. No one ever makes a hit if he's willing to admit that a stunt's beyond his skill; he should say, 'I can! I will!' Obstacles are doubtless there, trouble, grief and woe to spare, he must face a score of foes, but he laughs at things like those. Men who falter, doubt and quail, never travel in a whale. When I say I'll do a thing you may bet your wedding ring that I'll win or break a slat; you may bet your roll on that."

SANTA CLARA WINS FOOTBALL GAME

Team is Coached by R. . Harmon a Former Resident and a Graduate of Illinois College — Bert Macomber former Illinois U. Player With Olympics.

SAN FRANCISCO, Sept. 9.—Santa Clara University today defeated the Olympic Club of San Francisco 7 to 0 in the first football game of the season here.

R. E. Harmon, a graduate of Illinois college and a brother of W. T. Harmon coach at the Hill school is coach of the Santa Clara team.

Harmon while at Illinois was one of the leading athletes and was especially strong in football and baseball. While W. T. Harmon was in service he had charge of athletics at Illinois. He won a track championship and produced a team of youngsters in 1917 that scored on every team it played.

At Santa Clara he has a large squad and some promising material. Last fall was the school's first year at the American game. It looks as tho the team has learned the rudiments of the game and would be a contender for the Pacific coast championship this year. Harmon's many friends will join in wishing him the best of luck and many more victories.

MOTION PICTURE ACTRESS LYING AT POINT OF DEATH

Olive Thomas is Suffering from Mercurial Poisoning

MRS. JACK PICKFORD IN PRIVATE LIFE

PARIS, Sept. 9—Olive Thomas, motion picture actress is lying in a critical condition at the American hospital at Neuilly, where she was taken several days ago suffering from mercurial poisoning. An official statement issued by Dr. Joseph Choate, an American physician who is in charge of the case says:

"Her condition is serious but we are hopeful of her recovery."

It is learned, however, from a reliable source that the condition of Miss Thomas is critical and that her recovery is doubtful.

Dr. Choate said today that the actress had swallowed a solution of alcohol preparations, containing twelve gramms of bichloride of mercury, sufficient to kill twenty-five men. He added that she had taken it thru error.

Recently Miss Thomas, it is said, had been suffering from nervous depression and had expressed fear for the safety of her husband, Jack Pickford. According to Dr. Choate it was only thru the prompt first-aid given by Pickford on his return to the hotel where they are staying, that Miss Thomas is alive now.

FUNERAL SERVICES FOR LATE REV. SCOTT PEAK

Impressive Services Were Held at Exeter Christian Church at 10 O'clock Thursday Morning — Life Long Friend of Deceased in Charge.

Bluffs, Sept. 8.—Funeral services for Rev. Scott Peak of Scott county were held at the Christian church in Exeter at 10 o'clock Thursday morning in the presence of several hundred sorrowing relatives and friends. The beautfiul and impressive funeral service was in charge of the Rev. Mr. Connoily of Roodhouse, a life long friend of the deceased. He gave a brief review of the beautiful christian life that forsook self, wordly pleasures, earthly riches and all to be a true follower of Christ, to be worthy to be called to preach the word of Truth and Life. He has fulfilled his earthly mission and has been called to a higher plane in a broader field of action, in that land of sunshine and flowers where sorrow never comes.

Servant of God, well done:
Rest from thy loved employ;
The battle fought, the victory won
Enter thy Master's joy.

The pains of death are past;
Labor and sorrow cease;
And life's long warfare closed at last,
His soul is found in peace.

Soldeirs of Christ, well done;
Praise by thy new employ;
And, while eternal ages run
Rest in thy Savior's joy."

The music was in charge of ert Brackett at the piano. Mrs. Elmer McCullough, Chas. Six and Al Morris, with Mrs. Robert Bracket at the piano.

The beautiful array of flowers was in charge of Mrs. Wm. Redshaw, Miss Virgie Buchanan, Mrs. D. F. Webster, Mrs. Luke Whillock, Mrs. Thos. Allin and Mrs. Thomas Whitlock. The bearers were Dr. D. F. Webster, Thomas Whitlock, Robert Bracket, William Berry, Ed Funk and William Redshaw. Burial took place at the family lot beside his son, Luke in the Exeter cemetery. The light of a beautiful, well spent life has gone out but the kind words noble deeds and gentle acts of kindness and mercy shall live on.

PARK BOARD IN SESSION.

The park board met in regular session last evening and transacted ordinary business. It was decided to make certain improvements and changes at Nichols park, including the removal of some of the old shrubbery and the planting of new.

The chief work of the evening was the taking of steps toward securing a first class lanscape architect to lay out the new park along Mauvaisterre lake and plan the drive which is to be known as "Victory Drive."

In a scene from "HUCKLEBERRY FINN"
A NEW MARK TWAIN - PARAMOUNT ARTCRAFT PICTURE

In the gallery of eternal youth, the master humorist has carved their adventures—Huck Finn, Tom Sawyer, The "King," The "Duke," Black Jim, "Pap" Finn and Little Mary Jane. And they're all alive today in this great picture. The tale of a boy who couldn't be good—wouldn't pretend—so ran away with a vagabond crew and floated down the Mississippi to a place in the heart of the world. All the fun, all the pathos, all the adventure and excitement of Mark Twain's immortal story. Huck is the greatest character in fiction, and his story is one of the greatest ever told.

Gov. Cox is quite sure that Chairman Hays of the national Republican committee has conducted himself improperly and should be dismissed. Probably Mr. Cox thinks the Republican chairman should never have been appointed in the first place.

Authorities are arranging to have two deputy sheriffs on duty in each polling precinct in Chicago for the election next Tuesday. This will mean an additional army of 5,000 men. However, the way in which the campaign is warming up indicates that the services of these men may be needed.

There is no denying that more than the usual amount of feeling has been injected into the present state campaign within the Republican party. But in recent days a number of newspapers have been urging readers to choose the best candidates regardless of factions or alignments.

This is important, but of even still greater importance is to "get over" the primary contest feeling, and work together for the election of those candidates who are successful next Wednsday. Republicans have in the past given evidence of their ability to bury differences and work for the common cause, and they will follow that wise course again.

One of the big little questions before the Methodist ministers assembled at Decatur relates to "entertainment" for conference delegates. Each year there is increasing support for the plan of housing all delegates at hotels instead of having them entertained at private homes.

There is much to be said in favor of the new idea and its adoption would increase the independence of the ministers.

It is pleasing to note that some consumers have figured out that there is no need to worry now about fuel shortage this winter. They are basing this good feeling on recent statistics, which show that transportation efficiency is rapidly increasing. This, they say, is because the railroad managers are loading cars more heavily and moving them more rapidly. Let us hope.

HAVE FAITH IN JACKSONVILLE

It is an interesting commentary on the present feeling in Jacksonville that there is a good demand for water supply bonds. These bonds, it will be remembered, were issued against the lands which the citizens purchased to make the construction of Lake Mauvaisterre possible.

The city by ordinance is setting aside in monthly installments a fund for the payment of the principal and the semi-annual interest. The bonds draw 6% interest. While other paper is available today paying 7 or 7½ per cent, still a number of transactions in water bonds have been recorded in the last two weeks and inquiries have been made thru local banks from prospective purchasers.

That the bonds are in demand gives proof of the success of the water project and further is an evidence of the faith that Jacksonville people have in their city.

UNKEPT PROMISES

The Democratic party pledged itself to a reduction of what it denounced as the extravagance of the previous Republican administration. Instead of reducing expenditures the Government appropriations were greatl increased with the result that war taxes became necessary long before the United States entered the war or before preparatioon for war was begun. So pronounced was this increase of expenditures that the president found it necessary to attempt an excuse by asserting that the people of the country care not how much money is spent provided that they get what they want in return.

Preservation of the [illegible] tem in public appointments and efficiency in the public service were other pledges which were remembered only to be broken. Merit never had smaller place in the public service and entangling red tape never before so greatly hindered the transaction of public business.

"Pitiless publicity" was another pledge given to the American people during the campaign of 1912, but there has never been a Federal administration so secretive as that which is now in control. The single term pledge and numerous others that might be mentioned, serve as further instances of the kind of "fidelity" with which the Demorcatic party has kept its pledges.

In view of all this record which is still fresh in the minds of the American people it will be vain for the Democratic campaign managers to hope that they can win the confidence of the American people now by pledging fulfillment of promises with the same fidelity they have observed in the past.

DETERMINATION

Jonah said he'd bet some kale he could travel in a whale. All the village sports were shocked and they joshed him and they mocked. "No one ever yet," they cried, "journeyed in a whale's inside. It would be all kinds of fun, but, alas, it can't be done. For the fish's throat's so small it can't bolt big things at all; even if you got inside you'd be smothered soon," they cried; "you could not the trip endure, for the ventilation's poor." "That's the way all tinhorns spiel," answered Jonah, off the reel; "just because no other male ever traveled in a whale, you insist it can't be did, but I'll bet my Sabbath lid that I'll pull the stunt ere long, just to show you're all in wrong. No one ever makes a hit if he's willing to admit that a stunt's beyond his skill; he should say, 'I can! I will!' Obstacles are doubtless there, trouble, grief and woe to spare, he must face a score of foes, but he laughs at things like those. Men who falter, doubt and quail, never travel in a whale. When I say I'll do a thing you may bet your wedding ring that I'll win or break a slat; you may bet your roll on that."

The next meeting will be held Thursday, October 14 with Mrs. Clifford James.

Dahman Family Enjoyed Reunion.

The John Dahman family held its first reunion September 5th at the "Old Home Place" northeast of Arenzville. To Mrs. Eleanor Dahman mother of the children, the reunion came as a complete surprise.

The relatives came in their cars Sunday morning to the home of Henry Dahman where they combined their dinners and then went to the "Old Home Place." At noon the dinner was eaten on the front lawn.

The afternoon was spent in visiting and the eating of refreshments. Late in the afternoon the family group picture was taken after which all departed for their homes.

It is the first time all the children have been together at once since they left home.

Those present were: Mrs. Eleanor Dahman, mother of the children; Mr. and Mrs. Henry Musch and children, Melvin and John, of Hopewell; Mr. and Mrs. John Dahman and children, Vera and Russel, of east of Winchester; Mr. and Mrs. Herman Dahman and children, Lloyd and Ralph, of near Franklin; Mr. and Mrs. Chris Dahman of near Alexander; Mr. and Mrs. William Dahman and children, Mabel and Harry, of near Ashland; Mr. and Mrs. Coy Stice, daughter and son-in-law respectively of Mr. and Mrs. William Dahman, and children, Anna Mae and Harold, of near Literberry; Mr. and Mrs. Henry Hagener and children, Lela and Elmer of near Arenzville; Henry Wellenrieter, grandson of Mr. and Mrs. Henry Hagener; Mr. and Mrs. John Russiwinkle of near Arenzville; Mr. and Mrs. Henry Dahman and son Homer of Arenzville.

THINK ACCIDENT RUMOR STARTED BY GAMBLERS

Cincinnati, O., Sept. 9.—Commenting on the rumor which spread over the country today that "Babe" Ruth and other members of the Yankee team had been injured, Colonel Huston, part owner of the "Yankees" while here today said he was informed by long distance telephone from New York that it was believed the "sure thing" gamblers started the story.

"I have no facts on which to base any charges," Colonel Huston said, "but one can understand the possibilities of gamblers getting unfair odds thru just such tricks. This is something baseball authorities have no way of stopping. I want to say however, that there has not been a suspicion of anything wrong, no matter what one may think about betting on baseball or anything else."

A Word for the Ambitious Boy:

MANY an ambitious farm boy is being tempted to go out into the world to seek his fortune. If you are considering deserting the farm, you are facing a crisis in your life that deserves much earnest thought and study.

Talk the matter over with men who ought to know the right course for you. Don't decide too hastily. Perhaps your father will take you into partnership, give you an interest in a plot of ground or in some livestock that will be the foundation of a fortune. Statistics show that the chances for business success are ten to one in favor of agriculture.

For every ambitious country boy there are a dozen city toilers, sick and tired of the endless grind, struggling desperately to keep abreast of the cost of living, longing for a chance to take their families to God's great out-of-doors. Millions of men of the city are envying you this minute because you are young and on the farm. They know that *the four-leaf clover of your good fortune is growing by your home doorstep.*

Good, modern, labor-saving machines are taking the drudgery out of farming and putting still more profit into it. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P&O plows, etc. Such machines add to the profit and pleasure of daily life.

THINK ACCIDENT RUMOR STARTED BY GAMBLERS

Cincinnati, O., Sept. 9.—Commenting on the rumor which spread over the country today that "Babe" Ruth and other members of the Yankee team had been injured, Colonel Huston, part owner of the "Yankees" while here today said he was informed by long distance telephone from New York that it was believed the "sure thing" gamblers started the story.

"I have no facts on which to base any charges," Colonel Huston said, "but one can understand the possibilities of gamblers getting unfair odds thru just such tricks. This is something baseball authorities have no way of stopping. I want to say however, that there has not been a suspicion of anything wrong, no matter what one may think about betting on baseball or anything else."

PLETCHER GIVES ANNUAL REPORT

District Superintendent Presents Report to Conference — Year Has Been One of Great Activity.

Rev. E. L. Pletcher, superintendent of Jacksonville district, presented his annual report to the Methodist conference now in session at Decatur. The report is a comprehensive one and shows activity during the past year. It is given hereunder in full.

Bishop Nicholson and Brethren:

The conference year is gone, and we are met here to render an account of our stewardship. We cannot go back and live this year again but perhaps by recounting its labors and victories we may be able to enter another year with a better understanding and a more devoted purpose. We trust that some foundations have been laid in the past year which will serve that we may build upon them for a better and grander structure of the future.

Work of the Year

At the close of conference a year ago the Jacksonville district entered upon its year's work with a personnel of thirty-one members of the conference, ten supplies and five undergraduates, making forty-six preachers in all and one charge to be supplied. Very shortly after conference one of the supplies dropped out and one of the other preachers was transferred to other work and from then until the close of the year we have been short of from two to six pastors. This has made the work difficult. Charges without pastors have as a result suffered and the work has not been kept up as it should have been.

But we have made advances even in the face of difficulties. Three years ago the total salaries, including house hent, amounted to $45,438. The past year they have amounted to $63,890 and now an addition of some $3,050 is promised making an increase during the past three years of $24,002 and the present average salary on the district is $1,420.

Special Activities

Though last year was the centenary year we have felt that this great work did not end then but rather it was a call to advance all along the line. Out churches entered into the Inter-Church movement as far as possible and many of our pastors rendered valuable assistance in this campaign. It has been our purpose to see that the centenary spirit is maintained, and that not only shall all the churches be urged to bring up their full quota but that all collections for this year shall be carefully made and all accounts be kept in order and up-to-date.

We have not lost sight of the conference claimants campaign and in a number of cases this fund has been added to and plans are now on foot to attempt to complete our portion of this fund during the coming year. We find that there is no appeal which meets a more ready response from the laymen than the appeal for an adequate support for the retired minister.

We have sought primarily to make this year, one of revivals and spiritual life. Not a mechanical revival but a real heart felt soul saving effort which shall quicken the whole life of the church. We began the year with this thought and in every gathering of the ministers this has been the dominant note. We have prayed with the quarterly conference and sought to lay upon the laymen the deep concern for souls without which no real awakening can come to the church. As directed by our leaders we attempted to carry on an intensive campaign during the weeks preceeding Easter. I am quite sure that both laymen and ministers entered into this work with a most earnest purpose but many things came to hinder and in some cases almost entirely stop the work. First in the early part of the winter and continuing for many weeks we again experienced an epidemic of the "flu" which in many rural localities was more severe than the previous year. Our churches were closed, Sunday schools almost destroyed and the people so scattered that in some cases the work has not yet fully recovered. But with great devotion the pastors began to plan and work for the Easter day of joy and victory. Easter morning broke dark and stormy and the worst blizzard of the year swept through the country. The district superintendent of the Jacksonville district spent the whole forenoon struggling in mud and snow drifts and failed to reach his appointment. Such was the experience of many other circuit riders. In place of a great day of ingathering the results were practically nil. But the preachers of the Jacksonville district are of such fiber and purpose that they did not hesitate but pushed right on; and on the Sabbath following Easter many churches witnessed the harvest that had been delayed. The reports after that day showed that we had up to the middle of April had some eleven hundred conversions and some seven hundred and fifty accessions to the church.

We have always felt that a real revival effort cannot be measured always by time and pice, so it was decided to continue the revival all through the year. To this end in the early spring the district secured a new tent which will accommodate five hundred people and a committee was appointed to take charge of a series of summer tent meetings. The committee was D. V. Gowdy, F. E. Smith and C. W. Ivie. There were soon more calls for meetings than there was time to allot. Meetings have been held in Roodhouse, Berdan, Franklin and Forest City. This latter meeting closing the day before conference. In every place we have had numerous conversions and the whole community has been greatly revived. We have in all cases sought to make the meetings reach the whole community and have not confined our efforts to our church alone, but have sought to strengthen all Christians and build up the Kingdom in every way. The most notable results were obtained at Berdan where from the very first service there were conversions and the total number reached sixty-three in the two weeks. As a result of our tent meetings we can now report twelve hundred and fifty conversions during the year, and a thousand accessions to the church. Arrangements are already completed for another tent meeting immediately after conference on the Lynnville work, the new pastor here will find the laymen have every thing arranged to start the meeting as soon as he arrives.

Improvements

There have not been any great building projects carried on this year but in nearly all charges there has been a spirit of improvement and a desire to see the preacher better housed and the church made more attractive and comfortable. As a result many minor improvements have been made on both churches and parsonages. We have a fine new rural church ready for dedication immediately after conference on the Berdan circuit at Richwoods. This church was destroyed by fire about a year ago but having insurance and with the loyal support of the community the new church which has arisen on the ruins of the old is much larger and better in every way, and with basement and Sunday school room it will be well fitted to minister to the new community program.

At Bluff Springs a new parsonage has literally arisen, for they have raised the old parsonage and built a first floor and when completed this will be one of the most modern and best arranged parsonages of the district. Pastor F. T. Peters deserves much commendation for the labor and devotion he has shown in this enterprise. Both at Ashland and Petersburg the parsonages have reecived much attention and show great improvement. Our Church Known as Garner Chapel on the Ashland Circuit has been decorated and made attractive as all rural churches should be, and is becoming stronger and more attractive as a result of this effort of the members to meet community needs.

Heart Breaks

If one is conscientious, he cannot look back upon the work he has attempted for his Master without regrets that it has not been done better and that the results have not been more apparent. It is the regret of our heart that the days have flown so fast and the results have been so tardy. But there is one who will not wait and he demands an accounting of our stewardship without asking permission of our convenience. The Reaper has been amid the grain in the district during the past year and "He reaps the bearded grain at a breath and the flowers that grow between." Our preachers, young and middle aged and old have fallen before his sickle. Two of the sweet voices which sang the songs of the King are hushed and the lips of one of the fathers are also still. With hushed voice we call the names of N. M. Rigg the saintly and devout, A. E. Pepping the hopeful and sincere and A. Orr the aged and helpful. All these died in the faith and their works do follow them. The Sunday following Easter was a great day in our church at Virginia and after the service of the evening was over the pastor, Rev. N. M. Rigg, said it was one of the finest of his ministry. Many of the young people had come forward that day confessing their Christ. Little did any one dream that before another day had passed their beloved pastor would be in the presence of his Lord. But such was the case. Mrs. Rigg took up the work of her husband and no higher honor could have been paid to the memory of this beloved pastor than that his work should so go on to the end of the year. A large class of preparatory members and others was received by the district superintendent, June 6th, as a result of her faithful labors and the whole church has prospered and been blessed as this devoted but stricken woman remained with her husband's work and carried the year to a successful conclusion.

One of our most promising young preachers was Alvin Pepping who was stationed at Roodhouse. For some time he had been in frail health but such was his devotion to this work and so undaunted his spirit, that few suspected how serious was his condition. Tuesday, August 10th we held his fourth quarterly conference and as he reported the work of the year he remarked that he was so much improved that he would be fully able for whatever the conference might give him to do in the year to come. He spoke to a union prayer meeting with deep feeling and power on Wednesday night and by 4 o'clock the next Saturday morning he was with the great company of the church triumphant.

Residing in Roodhouse for many years was one of the beloved veterans of the conference. He had been a man of power and a noted evangelist in his day. In his early ministry he was Peter Cartwright's pastor and was with that noted preacher when he died. Having retired from active work he spent his closing days in the little home in Roodhouse, loved by all, honored by the church, and always helpful to his pastor; such a man was the Rev. A. Orr. He, too, in the early summer heard the call and was ready. Not only has the district lost these ministers but a number of noble and devoted laymen have been called from our midst during the year. Our hearts are saddened but we serve him who said, "I am the resurrection and the life" and in this hope we press forward to the morning of that day which shall never end.

Other Institutions

We feel that those institutions of the church which have to do with our young life must have the most careful attention and support, with this in view we have felt that no time is too precious to be denied the Sunday school and Epworth League. Every Sabbath of the year your superintendent has made it a point to attend both Sunday school and Epworth League services and render whatever assistance possible. We believe that in nearly every charge the Sunday school is improving and the reports show a better attendance.

The Epworth Leagues of the district held a fine convention June 10th and 11th, at Petersburg, with some 125 Epworthians in attendance. We are planning some very aggressive work among our young people in the coming year. Miss Nina McCarter, a high school teacher, who has prepared herself for special Christian work, has been secured and she will devote part of her time as first vice president of the district league in visiting all the leagues and doing whatever she can to build up the spiritual life of this arm of the church.

Miss McCarter has given her time during the past year to special work among the large Italian settlements south of Springfield making her headquarters at Virden. Also, we have employed Miss Ruth Smith who has acted as a pastor's assistant in a number of charges giving help during the revival campaign, in visiting and doing personal work. Both of these ladies have been very successful and justify the centenary in making it possible for us to secure their services.

This has been a good year both for the W. F. M. S. and the W. H. M. S. and we appreciate the faithful work of these splendid women. A number of new auxiliaries have been formed and wherever the women are organized and doing this line of work the whole church seems to have new strength and vision.

There is another institution located in the Jacksonville district but which belongs to the whole conference and sheds blessings upon all of Methodism, and not only Methodism but all those who believe in and appreciate a strong and noble womanhood. We almost fear that our words may seem extravagant when we speak of the Illinois Woman's college.

There has never been a day since that autumn day seventy-four years ago when that school was founded that has been as bright with prospects for the future as the present day of the Woman's college. The attendance of the past year has been large and taken all together this has been the best year of its whole history. It was long ago found impossible to conduct such a school without a deficit unless there is a very ample endowment, so it was not unexpected that the year should show a deficit, but owing to the generosity of friends it was possible to meet this and also make some very needed improvements in the library and in the placing of hard floors in a large number of rooms.

The outstanding event of the year in connection with the Woman's college was the recognition of this school by the General Educational Board in its high standard as a college and its permanent place among the standard colleges of the country. This was shown by a gift of $7,500 towards teachers' salaries for the current year and the promise of $6,000 for a similar purpose next year. This recognition was further shown by the generous offer of $133,333 towards a permanent endowment of $400,000 to be used for increase in teachers' salaries. For the currant year $1,100 has already been added to the salaries of the teachers and $20,000 will be needed to equal the salaries of colleges of equal grade.

It will be a cause of gratification to the conference to learn that Rev. W. J. Weber of the Oregon conference has been secured as Professor of Bible and Religious Education and will enter upon his duties with opening of the college year. This is a new step in religious education and President Harker should be congratulated and it is with great hopes we look forward to the development of this department.

As we have made this hasty review of the year's work, we realize how inadequate and insufficient words are to express or portray the joys and sorrows or the struggles and victories of the year. He alone Who seeth all things and fully understands can really measure and appreciate its true worth and into His hands we commit the task.

PLETCHER GIVES ANNUAL REPORT

District Superintendent Presents Report to Conference — Year Has Been One of Great Activity.

Rev. E. L. Pletcher, superintendent of Jacksonville district, presented his annual report to the Methodist conference now in session at Decatur. The report is a comprehensive one and shows activity during the past year. It is given hereunder in full.

Bishop Nicholson and Brethren:

The conference year is gone, and we are met here to render an account of our stewardship. We cannot go back and live this year again but perhaps by recounting its labors and victories we may be able to enter another year with a better understanding and a more devoted purpose. We trust that some foundations have been laid in the past year which will serve that we may build upon them for a better and grander structure of the future.

Work of the Year

At the close of conference a year ago the Jacksonville district entered upon its year's work with a personnel of thirty-one members of the conference, ten supplies and five undergraduates, making forty-six preachers in all and one charge to be supplied. Very shortly after conference one of the supplies dropped out and one of the other preachers was transferred to other work and from then until the close of the year we have been short of from two to six pastors. This has made the work difficult. Charges without pastors have as a result suffered and the work has not been kept up as it should have been.

But we have made advances even in the face of difficulties. Three years ago the total salaries, including house hent, amounted to $45,438. The past year they have amounted to $63,890 and now an addition of some $3,650 is promised making an increase during the past three years of $24,002 and the present average salary on the district is $1,420.

Special Activities

Though last year was the centenary year we have felt that this great work did not end then but rather it was a call to advance all along the line. Out churches entered into the Inter-Church movement as far as possible and many of our pastors rendered valuable assistance in this campaign. It has been our purpose to see that the centenary spirit is maintained, and that not only shall all the churches be urged to bring up their full quota but that all collections for this year shall be carefully made and all accounts be kept in order and up-to-date.

We have not lost sight of the conference claimants campaign and in a number of cases this fund has been added to and plans are now on foot to attempt to complete our portion of this fund during the coming year. We find that there is no appeal which meets a more ready response from the laymen than the appeal for an adequate support for the retired minister.

We have sought primarily to make this year, one of revivals and spiritual life. Not a mechanical revival but a real heart felt soul saving effort which shall quicken the whole life of the church. We began the year with this thought and in every gathering of the ministers this has been the dominant note. We have prayed with the quarterly conference and sought to lay upon the laymen the deep concern for souls without which no real awakening can come to the church. As directed by our leaders we attempted to carry on an intensive campaign during the weeks preceeding Easter. I am quite sure that both laymen and ministers entered into this work with a most earnest purpose but many things came to hinder and in some cases almost entirely stop the work. First in the early part of the winter and continuing for many weeks we again experienced an epidemic of the "flu" which in many rural localities was more severe than the previous year. Our churches were closed, Sunday schools almost destroyed and the people so scattered that in some cases the work has not yet fully recovered. But with great devotion the pastors began to plan and work for the Easter day of joy and victory. Easter morning broke dark and stormy and the worst blizzard of the year swept through the country. The district superintendent of the Jacksonville district spent the whole forenoon struggling in mud and snow drifts and failed to reach his appointment. Such was the experience of many other circuit riders. In place of a great day of ingathering the results were practically nil. But the preachers of the Jacksonville district are of such fiber and purpose that they did not hesitate but pushed right on; and on the Sabbath following Easter many churches witnessed the harvest that had been delayed. The reports after that day showed that we had up to the middle of April had some eleven hundred conversions and some seven hundred and fifty accessions to the church.

We have always felt that a real revival effort cannot be measured always by time and plce, so it was decided to continue the revival all through the year. To this end in the early spring the district secured a new tent which will accommodate five hundred people and a committee was appointed to take charge of a series of summer tent meetings. The committee was D. V. Gowdy, F. E. Smith and C. W. Ivie. There were soon more calls for meetings than there was time to allot. Meetings have been held in Roodhouse, Berdan, Franklin and Forest City. This latter meeting closing the day before conference. In every place we have had numerous conversions and the whole community has been greatly revived. We have in all cases sought to make the meetings reach the whole community and have not confined our efforts to our church alone, but have sought to strengthen all Christians and build up the Kingdom in every way. The most notable results were obtained at Berdan where from the very first service there were conversions and the total number reached sixty-three in the two weeks. As a result of our tent meetings we can now report twelve hundred and fifty conversions during the year, and a thousand accessions to the church. Arrangements are already completed for another tent meeting immediately after conference on the Lynnville work, the new pastor here will find the laymen have every thing arranged to start the meeting as soon as he arrives.

Improvements

There have not been any great building projects carried on this year but in nearly all charges there has been a spirit of improvement and a desire to see the preacher better housed and the church made more attractive and comfortable. As a result many minor improvements have been made on both churches and parsonages. We have a fine new rural church ready for dedication immediately after conference on the Berdan circuit at Richwoods. This church was destroyed by fire about a year ago but having insurance and with the loyal support of the community the new church which has arisen on the ruins of the old is much larger and better in every way, and with basement and Sunday school room it will be well fitted to minister to the new community program.

At Bluff Springs a new parsonage has literally arisen, for they have raised the old parsonage and built a first floor and when completed this will be one of the most modern and best arranged parsonages of the district. Pastor F. T. Peters deserves much commendation for the labor and devotion he has shown in this enterprise. Both at Ashland and Petersburg the parsonages have received much attention and show great improvement. Our Church Known as Garner Chapel on the Ashland Circuit has been decorated and made attractive as all rural churches should be, and is becoming stronger and more attractive as a result of this effort of the members to meet community needs.

Heart Breaks

If one is conscientious, he cannot look back upon the work he has attempted for his Master without regrets that it has not been done better and that the results have not been more apparent. It is the regret of our heart that the days have flown so fast and the results have been so tardy. But there is one who will not wait and he demands an accounting of our stewardship without asking permission of our convenience. The Reaper has been amid the grain in the district during the past year and "He reaps the bearded grain at a breath and the flowers that grow between." Our preachers, young and middle aged and old have fallen before his sickle. Two of the sweet voices which sang the songs of the King are hushed and the lips of one of the fathers are also still. With hushed voice we call the names of N. M. Rigg the saintly and devout, A. E. Pepping the hopeful and sincere and A. Orr the aged and helpful. All these died in the faith and their works do follow them. The Sunday following Easter was a great day in our church at Virginia and after the service of the evening was over the pastor, Rev. N. M. Rigg, said it was one of the finest of his ministry. Many of the young people had come forward that day confessing their Christ. Little did any one dream that before another day had passed their beloved pastor would be in the presence of his Lord. But such was the case. Mrs. Rigg took up the work of her husband and no higher honor could have been paid to the memory of this beloved pastor than that his work should so go on to the end of the year. A large class of preparatory members and others was received by the district superintendent, June 6th, as a result of her faithful labors and the whole church has prospered and been blessed as this devoted but stricken woman remained with her husband's work and carried the year to a successful conclusion.

One of our most promising young preachers was Alvin Pepping who was stationed at Roodhouse. For some time he had been in frail health but such was his devotion to this work and so undaunted his spirit, that few suspected how serious was his condition. Tuesday, August 10th we held his fourth quarterly conference and as he reported the work of the year he remarked that he was so much improved that he would be fully able for whatever the conference might give him to do in the year to come. He spoke to a union prayer meeting with deep feeling and power on Wednesday night and by 4 o'clock the next Saturday morning he was with the great company of the church triumphant.

Residing in Roodhouse for many years was one of the beloved veterans of the conference. He had been a man of power and a noted evangelist in his day. In his early ministry he was Peter Cartwright's pastor and was with that noted preacher when he died. Having retired from active work he spent his closing days in the little home in Roodhouse, loved by all, honored by the church, and always helpful to his pastor; such a man was the Rev. A. Orr. He, too, in the early summer heard the call and was ready. Not only has the district lost these ministers but a number of noble and devoted laymen have been called from our midst during the year. Our hearts are saddened but we serve him who said, "I am the resurrection and the life" and in this hope we press forward to the morning of that day which shall never end.

Other Institutions

We feel that those institutions of the church which have to do with our young life must have the most careful attention and support, with this in view we have felt that no time is too precious to be denied the Sunday school and Epworth League. Every Sabbath of the year your superintendent has made it a point to attend both Sunday school and Epworth League services and render whatever assistance possible. We believe that in nearly every charge the Sunday school is improving and the reports show a better attendance.

The Epworth Leagues of the district held a fine convention June 10th and 11th, at Petersburg, with some 125 Epworthians in attendance. We are planning some very aggressive work among our young people in the coming year. Miss Nina McCarter, a high school teacher, who has prepared herself for special Christian work, has been secured and she will devote part of her time as first vice president of the district league in visiting all the leagues and doing whatever she can to build up the spiritual life of this arm of the church.

Miss McCarter has given her time during the past year to special work among the large Italian settlements south of Springfield making her headquarters at Virden. Also, we have employed Miss Ruth Smith who has acted as a pastor's assistant in a number of charges giving help during the revival campaign, in visiting and doing personal work. Both of these ladies have been very successful and justify the centenary in making it possible for us to secure their services.

This has been a good year both for the W. F. M. S. and the W. H. M. S. and we appreciate the faithful work of these splendid women. A number of new auxiliaries have been formed and wherever the women are organized and doing this line of work the whole church seems to have new strength and vision.

There is another institution located in the Jacksonville district but which belongs to the whole conference and sheds blessings upon all of Methodism, and not only Methodism but all those who believe in and appreciate a strong and noble womanhood. We almost fear that our words may seem extravagant when we speak of the Illinois Woman's college.

There has never been a day since that autumn day seventy-four years ago when that school was founded that has been as bright with prospects for the future as the present day of the Woman's college. The attendance of the past year has been large and taken all together this has been the best year of its whole history. It was long ago found impossible to conduct such a school without a deficit unless there is a very ample endowment, so it was not unexpected that the year should show a deficit, but owing to the generosity of friends it was possible to meet this and also make some very needed improvements in the library and in the placing of hard floors in a large number of rooms.

The outstanding event of the year in connection with the Woman's college was the recognition of this school by the General Educational Board in its high standard as a college and its permanent place among the standard colleges of the country. This was shown by a gift of $7,500 towards teachers' salaries for the current year and the promise of $6,000 for a similar purpose next year. This recognition was further shown by the generous offer of $133,333 towards a permanent endowment of $400,000 to be used for increase in teachers' salaries. For the current year $1,100 has already been added to the salaries of the teachers and $20,000 will be needed to equal the salaries of colleges of equal grade.

It will be a cause of gratification to the conference to learn that Rev. W. J. Weber of the Oregon conference has been secured as Professor of Bible and Religious Education and will enter upon his duties with opening of the college year. This is a new step in religious education and President Harker should be congratulated and it is with great hopes we look forward to the development of this department.

As we have made this hasty review of the year's work, we realize how inadequate and insufficient words are to express or portray the joys and sorrows or the struggles and victories of the year. He alone Who seeth all things and fully understands can really measure and appreciate its true worth and into His hands we commit the task.

ONE MORE EFFORT TO ESCAPE JAIL

McCollister and Evans Sawed Cell Locks—Discovered by Sheriff When Digging Out Brick Wall.

Another attempted jail delivery was frustrated about 10 o'clock Thursday night when Sheriff Weatherford heard his two prisoners working on the north wall of the jail. Edward McCollister and Lloyd Evans are the only inmates of the jail and this was their second attempt to escape. Without doubt the prisoners have outside aid and this accounts for the fact that Sheriff Weatherford found several metal saws and a chisel in their possession. With the saws the men had been able to cut out the locks of their cell doors and so reached the corridor and were cutting into the wall with the chisel when discovered.

Ever since the former attempt Sheriff Weatherford has been especially watchful and whenever there is an unusual sound he hunts for the cause. When he heard the grating noise last night he telephoned to Deputy Sheriff Roach and instructed him to come to the jail with Deputy Sheriff Wannamaker. Meanwhile the sheriff, shot gun in hand, stationed himself outside the jail building, ready to stop the men if they emerged thru the wall.

Cell Locks Cut

When the two deputies arrived, one man was left on guard and the two others ascended to the cell room. There was no use for McCollister and Evans to make denial for the locks had been cut out and some plastering and brick had been dug from the wall.

It is a mystery just how the men secured the saws and chisel but these tools must have been passed up to them thru the outside window. McCollister and Evans since their former attempt have been constantly kept in cells, but it would be possible for persons on the outside with a pole to reach thru the window and pass tools to the jail inmates.

After Sheriff Weatherford discovered that his prisoners had made a second attempt to escape, he placed them in the dungeon of the old part of the jail. It will not be possible to keep the men there all the time, and it now remains for the sheriff to adopt some plan whereby the pair can be kept under surveillance for 24 hours each day. If it is necessary to chain them together and to the wall, Sheriff Weatherford says he intends to make it his business to see to it that McCollister and Evans are in his keeping when the grand jury meets.

Worked As They Sang

In addition to other tools McCollister had a well made key which had evidently been fashioned from a metal spoon. The sheriff's attention was first attracted to the pair last night by the fact that Evans continually whistled and sang. On other evenings when there was any music the two sang or whistled together. The fact that there was only one performer struck the sheriff as unusual. Evidently Evans was furnishing the music while McCollister completed the work.

Sheriff Weatherford has a real job if he keeps this pair in custody until the November term of court.

OGLESBY SPEAKERS TALKED TO VOTERS

Carl H. Weber and Major Smith Talked in Behalf of Oglesby Ticket—Mr. Weber Tells of Getting Thompson Propaganda in France.

Carl H. Weber of this city and Major Smith of Centralia addressed the voters of Jacksonville at the court house Thursday evening in behalf of the Republican primary ticket headed by Lieutenant Governor John G. Oglesby.

Before the speaking Charles DeSilva's drum corps paraded the down town district and then played several selections at the court house. W. L. Alexander acted as chairman and introduced the speakers. He first introduced Carl H. Weber.

In a strong speech Mr. Weber appealed to all ex-service men to support the ticket headed by John G. Oglesby.

During the world war Mr. Weber saw service overseas. He told his audience that while in France he received extracts of speches and writings of William Hale Thompson. These were delivered by German airplanes as a part of the propaganda to weaken the morale of the American soldiers.

Mr. Weber cited Thompson's refusal to invite Joffre to speak in Chicago and the mayor's remark at the time that Chicago was the sixth German city of the world.

Condemned by Legion

Coming down to the present time, Mr. Weber told of the recent action of the Illinois divison of the Amercan Legion which passed resolutions condemning Thompson's war record while in session in Chicago.

He also told of Theodore Roosevelt Jr. refusing to speak at the Hamilton club because he could not say what he wanted to about Thompson.

Speaking of the Thompson ticket the speaker said that Thompson was the William Hohenzollern of America and was now trying to seize Illinois as the kaiser tried to size France.

The second speaker was Major Smith who proved possessed of great force and logic. He gave his attention to the financial aspect of the campaign.

After telling of how Governor Lowden's administration had reduced taxes, paid off a heavy state debt and now had $16,000,000 in the state treasury, the speaker asked his hearers if they wanted to turn this money into the hands of those who will pay off political debts.

Revenue from Corporations

Denying the accusation that Lowden had favored corporations, Major Smith said that on the contrary he had supported the increased franchise tax which had put corporation taxes on a graduated scale and had resulted in placing a great deal of revenue into the state treasury.

He referred to the story sent out by the Thompson forces that Lowden was responsible for the utilities commission. This bill, said the speaker, was passed in 1913 during the administraton of Governor Dunne. He also said that Richard Barr, a candidate for attorney general on the Thompson ticket, was in the senate and had been one of the men who worked for the passage of the bill.

In closing Mr. Smith lauded the efficiency of the Lowden administration and appealed for the support of the Oglesby ticket. He told of the harmony prevailing between the men of this ticket and the men in charge of the presidential campaign.

ONE MORE EFFORT TO ESCAPE JAIL

McCollister and Evans Sawed Cell Locks—Discovered by Sheriff When Digging Out Brick Wall.

Another attempted jail delivery was frustrated about 10 o'clock Thursday night when Sheriff Weatherford heard his two prisoners working on the north wall of the jail. Edward McCollister and Lloyd Evans are the only inmates of the jail and this was their second attempt to escape. Without doubt the prisoners have outside aid and this accounts for the fact that Sheriff Weatherford found several metal saws and a chisel in their possession. With the saws the men had been able to cut out the locks of their cell doors and so reached the corridor and were cutting into the wall with the chisel when discovered.

12-20 Kerosene Tractor With 16-Valve Engine

Power, Simplicity, Low Operating Cost. You will admire every point of this Twin City 12-20. It's fine, clean, handsome appearance, the ease with which you can get at all its parts as well as its simple operation. But most of all you will admire it's great power and it's low running cost. This great pawer is the result of the famous 16 valve engine—the most important step in tractor manufacturing since the beginning of the tractor industry. Live axle with direct drive on both speeds is another great feature. Come in and let us give you the whole story about this Twin City 12-20. When you buy a tractor you want the mast power you can get at the lowest possible cost, and that it what this Twin City 12-20 delivers.

A WONDERFUL STATE FAIR

Rev. J. F. Langton, the worthy rector of Trinity Episcopal church of this city, was once a resident of Minnesota, either St. Paul or Minneapolis, and has a great many reminiscences of that locality. He says the really greatest state fair in the United States is between "Paul" and "Minnie". James Hill, the great genius of the Great Northern railroad, was the prime mover in the enterprise. He gave the land and now the spot has seventy brick and stone buildings and the great fair is a fixture. Mr. Hill induced all the counties in the state to forego their fares and unite in making the state gathering as great as possible and they did so.

Then he brought free all exhibits for the fair, offered many prizes for best specimens of stock and the like and in every way strove to build up the enterprise and the people of the twin cities and the state generally worked with him.

One day was St. Paul day and there were 340,000 people on the grounds. Next day was Minneapolis day and they had 350,000 in attendance.

A Methodist church gives $12,000 for the refreshment privileges and makes money out of it. Everything produced in the great northwest is exhibited there and the occasion is one of great interest and Mr. Langton says will well repay a long journey to see it. A unique exhibit is mushrooms which are produced in great variety. There are along the Mississippi river great chalk clifts with long, deep caves which some tried to utilize as beer gardens but without profit and they were abandoned. One day two young men, brothers from Switzerland, arrived in the city and later looked over the caves an asked for how much they could be rented. The owners notsupposing the caves were worth anything leased them for a small sum to the young men for 25 years. At once they began the cultivation of mushrooms for which the caves were well adapted and the business grew and grew until now they employ 300 men and one season they exported $150,000 worth of mushrooms in addition to an immense home trade. Like genuine Swiss, the brothers lived in unpretentious stone houses made much like the mountain chalets of their native land. One is dead but the survivor and the younger generation carry on the business. The owners of the caves say they will charge a good sized rental when the term of the lease expires.

VETERAN RURAL MAIL CARRIER RETIRES

A. A. Douglass of Ashland Retires After Eighteen Years of Service—Other Items From Ashland and Vicinity.

Ashland, Sept. 9.—By a recent order of the Post Office Department which retired all rural mail carriers, who had reached the age of 65 years, A. A. Douglass of Route 2, Ashland was retired from the service after 18 years of faithful service.

Mr. Douglass in these 18 years has driven with horse and buggy 136,782 miles or nearly six times around the world. 70 Year-Old Springfield Woman Says Trutona is Best Medicine She Ever Tried.

Springfisld, Ill., Sept. 9.—"I'm glad to recommend Trutona, to one and all, as the best medicine I have ever tried," says Mrs. Emily Turner, 70 years old, and a well-known Springfield woman, of 919 South Thirteenth street. Mrs. Turner has undoubtedly taken scores of different medicines in her time, a fact which adds inestimable force to her statement above.

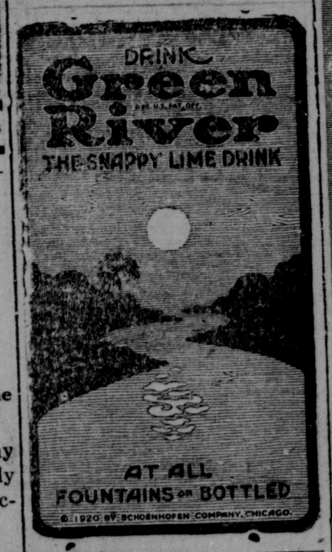

"For twenty eight years, I've been nervous and generally rundown," she continued. "I had no appetite, and the little I ate always hurt me. Gas would form in my stomach and bowels, until I just thought I couldn't stand it, and I'd become so sick that I couldn't throw up. My heart would flutter, and I'd suffer such smothering spells, that I sometimes thought my time had come. I had dreadful pains in my head and back, too.

"Trutona is certainly well-named, the Perfect Tonic. It's a splendid tonic. In fact, I'm so much stronger and better now, I don't have to lay awake at night, as I did, either, and the smothering spells have ceased to bother me. Trutona is building me up daily and I'm certainly thankful for the benefits I've derived from the use of the wonderful medicine.

SAYS NEWSPAPERMAN IS WATCHMAN OF REPUBLIC

Director of Columbia University Declares this Presidential Campaign Will be Won by Circulation of Newspapers.

Columbia, Mo. — This presidential campaign will be won by the circulation of newspapers and not by the circulation of money, Talcott Williams, director and organizer in its opening years of the school of journalism founded by Joseph Pulitzer in the Columbia university, said here today. Mr. Williams spoke at the dedication of the Jay H. Neff Hall of the school of journalism in the University of Missouri.

"Two score years ago the newspaper still waited for its issues on parties and public men," Mr. Williams said. "The world has changed. The many rule. The newspaper furnishes the only universal reading of the many. The newspaper no longer waits on men or on parties."

Newspaperman's New Task

Mr. Williams, himself one of the ablest and best known newspaper men in the country took for his theme, "The Newspaper Man's New Task."

"The newspaperman has become the watchman of the Republic on the walls of the future," he said. "The new home of the school of journalism in the University of Missouri we dedicate today is the Watchtower of Journalism in which the watchmen of the state will be trained.

"Those who go out from this building will accurately chronicle yesterday, they will shape, record and reveal the public opinion of the day, they will instruct society in the great school of the newspaper, they will share in the leadership of parties and of political movements.

"Two journalists are today the candidates for president, named by the two parties which divide the destiny of the Republic. For years, as editors and proprietors, they have not only been printing the news of the day but considering the broad future of affairs as no men do in any other calling.

"The newspaper man's new duty is to forsee the future and its issues, to prepare the public for them and like the prophets to be watchmen on the walls of our Israel.

Met Needs of Specific Region

"Such a duty in his field was discharged by Jay H. Neff after whom this building was named. He foresaw the needs of the farmers in the corn belt. He did not, like his early predecessors in the field of agricultural journalism, follow the routine of the farm, satisfied with the commonplaces of traditional cultivation. He organized knowledge of the market. He met the needs of a specific region. What had been inert scientific discovery, he spread as a living inspiration and instruction for the farmers' daily task."

News is standardized today, Mr. Williams observed. He said that no one newspaper in the war just over had conspicuously outstripped organized news. "Local news of the lesser routine order takes less space," he added.

"Penetration, the gift of expression, the unfailing instinct alike for the interest and the interests not of the few but of the many, "Mr. Williams said, "will be needed more than ever by constructive journalism. It will not suffice for the trained man merely to know news and edit news, but to understand news; to be able to unravel financial riddles; to know where the facts can be obtained; to appreciate their influence upon public opinion and to guide public opinion into wise channels by being wiser than the opinion for the many.

HOW GREAT BRITAIN MET HOUSE SHORTAGE

Many Schemes for Solving Housing Problem in England—Situation Similar to That of Many Cities in U. S.

New York. — The acute housing shortage faced by many cities in the United States today brought from the Guaranty Trust company a description by its foreign trade bureau of how Great Britain was meeting a similar situation.

"The program of the British ministry of health—complete rehousing in three years—is about one year behind and is costing more than double the original estimates," said the report.

"Local authorities in England are left in charge of the work unless they fail to show results, in which case the business is turned over to the office of works.

"What is keeping back housing at the present time is the fact that there are not enough skilled men to do ever a quarter of the work wanted. The trades unions will not allow the number to be increased from the outside.

"The government is using a sort of indirect compulsion by prohibiting 'luxury and unessential building', so that if a man will not build cottages he is not allowed to build anything.

"There are housing bond campaigns all over the country. In London, subscriptions to the six per cent bonds are coming in at the rate of about 100,000 pounds a day. While the local governments are issuing six per cent bonds, the British government charges seven per cent. Borrowing in the ordinary way for housing schemes not financed by bonds is usually seven per cent.

"On July 21 the total number of housing schemes in England and Wales numbered 10,673, covering, in all, land for 800,000 houses. Of these 7,120 have been approved with an area for 550,000 houses. In Scotland 103,000 houses have been authorized, the bids averaging about 1000 pounds per house. This is roughly 100 to 150 pounds more than it costs England."

SPECIAL ELECTION IN NEW YORK SEPT. 16

To Decide Whether Five Socialist Assemblymen Shall be Returned — Socialists Make Vigorous Campaign.

New York, Sept.—A special election will be held here Thursday, September 16 to decide whether the five Socialist assemblymen ousted from the New York legislature last winter for alleged disloyalty shall be returned with the addition of another member o fthe same political faith.

Republican and Democratic leaders in the state's lower house have declared that if the five ousted men are re-elected, steps will be taken to debar them or to expel them again after they have taken their seats. The ouster last spring focussed on Albany the attention of public leaders all over the country.

The five Socialists who were expelled last year are all candidates for re-election. They are August Claessons and Louis Waiman of Manhattan, Samuel A. Dewitt and Samuel Orr of the Bronx and Charles Soloman of Brooklyn. Nat Rubin is the Socialist candidate of the 19th Brooklyn district for the seat vacated by the death of Assemblyman John Damico.

In each case the Socialists are prosecuting their campaigns vigorously.

Efforts have been made by Republicans and Democrats to agree on fusion candidates in opposition to the Socialists, or failing this, to have one of these two parties make no nominations.

To save their assemblymen from another expulsion if elected Socialists of the state have announced that they would amend their constitution, striking out several of the articles which were cited in the ouster proceedings of last year as rendering the Socialists unfit to sit in the assembly. A referendum vote is to be taken by the party on these proposed changes before the election.

Two of the provisions of the Socialists constitution which party leaders say will be amended are those prohibiting members from voting for military appropriations and providing that the party may force resignation of its representative in case he fails to obey their instructions.

FRANCHISE TAX MEANS BIG INCOME TO STATE

Corporations in Illinois is Under Franchise Tax Act Pay Large Sum Into State Terasury.

Springfield, Ill.—Corporations in Illinois under the new corporation franchise act have already paid $2,532,499.53 into the state treasury this year, it was announced by Secretary of State L. L. Emmerson. The revenue from this source in 1919, under the old law, amounted to $50,102.58.

A corporation heretofore, regardless of size or extent of their business, paid the state $1 each six months or $2 a year.

What eight corporations, which hitherto paid the state $2 a year, have contributed under the new law is reported as follows:

Montg'y, Ward & Co	$43,029.70
Sears, Roebuck & Co	31,443.22
Commonw'th Edison Co	30,000.00
People's Gas Light Coke Co.	25,000.00

Ill. Traction System	18,439.50
Butler Brothers	15,000.00
Pullamn Company	13,852.80
p,, u....moW .s.....shrdlua	

Secretary Emerson reported that during the period from Jan. 8, 1917, when he took charge of the office, to August 17, 1920, the total amount collected was $5,577,311.77. Of this $1,860,084.15 was collected from domestic corporations, an increase of $425,430.16 over the previous four year period, and $1,134,727.62 from foreign corporations, an increase of $394,610.58.

This money the secretary of state said, is paid promptly into the state treasury and serves to reduce the amount levied for general revenue purposes.

Mr. Emmerson also announced that in the period from January 8th, 1917, to August 17 of this year, a total of $13,303,096.10 had been collected by the automoer cent since 1913, according good roads fund. In the four year period immediately preceding he said the total collected had amounted to $3,372,010.56.

The Columbia Grafonola brings all the artists whose records you play straight to you in your own home because—

Its Straight Tone Arm insures that the sound waves will develop fully and naturally.

Its Scientifically Correct Acoustic Design gives exquisite clearness and purity of tone.

Its *exclusive* Tone Leaves give you complete and accurate control over tone volume.

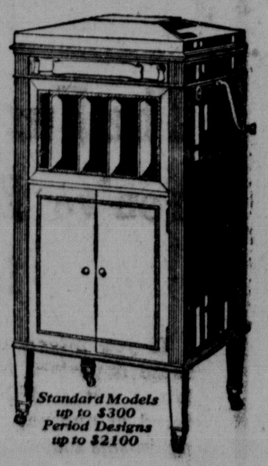

These are some of the simple secrets of the unique realism of the Columbia Grafonola's reproductions.

But, built right into the motor inside its beautiful streamline cabinet, the Columbia Grafonola has another *exclusive* feature which adds to its reproductions the last touch of comfort and convenience—

The Only Non Set Automatic Stop

Nothing to move or set or measure. Never stops before it should. Always stops at the very end. Just start the Grafonola, and it plays and stops itself.

Ask the nearest Columbia dealer for a demonstration of the stop that needs no setting.

Who has not felt the pull at the heart-string when the little one's cries of distress and pain rent the home? We do what we can to bring relief. Often there is much guess work—and local treatment is given for temporary comfort.
But to bring permanent relief we should go back of the effect and strike at the cause and invariably it is found in the spine. Thousands of children needlessly suffer from spinal defects which press on the nerves that supply life energy to some part of the body. It is this pressure that is the cause of ailment now and in later years.
Parents who exercise forethought in preparing their children for an abundant, healthy future, will have the young and growing spines examined regularly by a competent Chiropractor. If any spinal defect is found, don't hope for the child to outgrow it, because it invariably becomes worse; but have the defect corrected in time and save much future trouble.

SIMPLE HOME REMEDY ADVISED FOR HAY FEVER

Anyone Can Make a Pint for Trifling Sum and Used in Time May Prevent Annual Attack.

"No matter how severe your yearly attack be.

"No matter how distressing or humiliating—

"Its intensity can be reduced to a harmless mildness," says a Kentucky druggist, who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases of Hay and Rose fever reduced to what might be called a Mild Cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack, the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled. Gargle daily as directed and snuff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcine in three-quarter-ounce vials is dispensed by all the better pharmacies.

Mentholized Arcine is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

HE GAVE UP HOPE OF GETTING WELL

Decatur Man Was Unable to Work for Weeks Before He Began Taking Tanlac.

"I had given up hope of ever seeing another well day, but Tanlac had made a new man of me," said James Doty of 414 N. Morgan street, Decatur, Ill.

"For twelve long years," said Mr. Doty, "I suffered so that I felt that death itself would be welcome. My kidneys worried me continually, and my back hurt me so bad I would have to sit in one position without moving. I lost my appetite completely, and even what little I ate bloated me up with gas until I could hardly stand it. I suffered terribly from rheumatism, and my legs were swollen and at times seemed like they were drawing up in knots. I became so weak I had to sit down to keep from falling. I didn't know what a good night's sleep was, and I lost so much weight and strength that I was almost a living skeleton and couldn't work for weeks.

"When I had finished my second bottle of Tanlac I was getting better, today I can truthfully say that I never felt better before in all my life. My stomach and kidneys are in fine shape, I'm not the least bit nervous, I never feel a trace of rheumatism and can get about as good as I ever could. I have a big appetite and have gained so much weight and strength that I'm beginning to look like my old self again."

Tanlac is sold in Jacksonville by Coover Drug Co. and J. F. Shreve Drug Stores and by the leading drug store in every town. —Adv.

HE GAVE UP HOPE OF GETTING WELL

Decatur Man Was Unable to Work for Weeks Before He Began Taking Tanlac.

"I had given up hope of ever seeing another well day, but Tanlac had made a new man of me," said James Doty of 414 N, Morgan street, Decatur, Ill.

"For twelve long years," said Mr. Doty, "I suffered so that I felt that death itself would be welcome. My kidneys worried me continually, and my back hurt me so bad I would have to sit in one position without moving. I lost my appetite completely, and even what little I ate bloated me up with gas until I could hardly stand it. I suffered terribly from rheumatism, and my legs were swollen and at times seemed like they were drawing up in knots. I became so weak I had to sit down to keep from falling. I didn't know what a good night's sleep was, and I lost so much weight and strength that I was almost a living skeleton and couldn't work for weeks.

"When I had finished my second bottle of Tanlac I was getting better, today I can truthfully say that I never felt better before in all my life. My stomach and kidneys are in fine shape, I'm not the least bit nervous, I never feel a trace of rheumatism and can get about as good as I ever could. I have a big appetite and have gained so much weight and strength that I'm beginning to look like my old self again."

Tanlac is sold in Jacksonville by Coover Drug Co. and J. F. Shreve Drug Stores and by the leading drug store in every town. —Adv.

Boudoir talks with Sybel on how cocoa butter keeps the skin young

Tiny age wrinkles start the minute the skin becomes sluggish. They soon grow to be really conspicuous. Today Sybel explained to me how easily this condition could be avoided.

"It's simply foolish, dear girl, to allow the skin to grow sluggish or lifeless. It is so easy to defy wrinkles and retain a fresh youthful complexion.

"We can do this by stimulating and nourishing the skin. Scientists recommend cocoa butter as a skin food and Coco-Bloom—my cocoa butter cream—is not only rich in cocoa butter, but contains other ingredients equally beneficial.

"Rub Coco-Bloom into the pores until the cream is entirely absorbed using an upward and outward motion. Afterward use first hot then cold water applications and lastly witch hazel to close the pores. A few of these treatments will work a marvelous change in the appearance of your skin.

"Remember, Coco-Bloom is a *cocoa butter cream*, and it supplies exactly what is needed to make your skin healthy."

THE ILLINOIS PUBLIC UTILITIES LAW

A Bell phone service publication gives the following statement in explanation of the Illinois Public Utilities law.

"All rates * * * by any public utility * * * for any service rendered * * * shall be just and reasonable.

"Every unjust and unreasonable charge made * * * is hereby prohibited and declared unlawful.'

That's all there is to the act passed by the state legislature in 1912 creating the Illinois State Public Utilities Commission, and which now is much in the limelight because of certain politicians who are seeking to mislead the public as to the creation, workings and acts of the commission.

It takes 40 pages and 86 paragraphs of typed matter to define the purpose of the commission, but stripped of all legal verbiage, the "nub' of the commission's purpose is in the above quotation.

The commission was created during the regime of Gov. Edward F. Dunne, Democrat, who was a "home rule' and "municipal ownership" advocate. He signed the act creating the commission over the protest of Chicago's city council and other aldermanic bodies in various parts of the state. It was stated by the then governor that his purpose in urging the creation of such a commission was to give smaller communities in the state a means of having their public utilitiy rates fixed in a scientific manner.

Creation of the commission was not urged by a majority of the state's public service corporations, as some of the politicians charge who want to avoid telling the public he whole truth. Once the commission came into being the public service corporations were left no alternative but to bow to the law and come under the commission's jurisdiction.

Every ruling of the state commission has been upheld by the courts, state and federal. The United States supreme court, in a ruling, upheld the constitutionality of the commission, so there is left no doubt as to whether the commission is within its power in assuming and exercising entire jurisdiction over rates and service matters.

Within the last few months certain Chicago politicians, who are at war with Governor Lowden's state administration, have tried to place the public service corporations and the commission in an unfair light before the public. An impression has been sent broadcast that the state commission is a creation of the Lowden administration and that its creation was in response to a suggestion from the public service corporations.

Nothing can be further from the truth than such an impression. Governor Lowden and all other succeeding governors can do nothing else but continue the commission until the state legislature, which created it, repeals the act. As long as the act remains in force Governor Lowden and the chief executives who will follow him have no alternative. The commission is created by law, and while the law stands the commission will be with us, whether governors, mayors, city councils or public service corporations like it or not.

Another angle of the situation which some of the politicians use further to mislead the public, is the intimation that the commission arbitrarily fixes rates. It does nothing of the kind. Under the law the commission must fix rates just and reasonable alike to corporation and community. The commissioners would lay themselves open to impeachment proceedings if they did anything but this. If frates are fixed which a community believes are unfair and unreasonable to it, it can appeal from any ruling of the commission by going to the Sangamon county court, as the law creating the commission specifies. On the other hand if the commission was to give a ruling which would amount to confiscation of the plant and property of any public service corporation in the state, that corporation can appeal to the federal courts.

Nervous Breakdown

"I am so nervous it seems as though I should fly"—"My nerves are all on edge"—"I wish I were dead." How often have we heard these expressions or others quite as extravagant from some loved one who has been brought to this state by some female trouble which has slowly developed until the nerves can no longer stand up under it. No woman should allow herself to drift into this condition without giving that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

Read the Letters of These Two Women.

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back, lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."—Elizabeth Weaver, R. R. 2, North East, Md.

Minneapolis, Minn.—"I was run down and nervous, could not rest at night and was more tired in the morning than when I went to bed. I have two children, the youngest three months old and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children, and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."—Mrs. A. L. Miller, 2633 E. 24th St., Minneapolis, Minn.

THE ILLINOIS PUBLIC UTILITIES LAW

A Bell phone service publication gives the following statement in explanation of the Illinois Public Utilities law.

"All rates * * * by any public utility * * * for any service rendered * * * shall be just and reasonable.

"Every unjust and unreasonable charge made * * * is hereby prohibited and declared unlawful.'

That's all there is to the act passed by the state legislature in 1912 creating the Illinois State Public Utilities Commission, and which now is much in the limelight because of certain politicians who are seeking to mislead the public as to the creation, workings and acts of the commission.

It takes 40 pages and 86 paragraphs of typed matter to define the purpose of the commission, but stripped of all legal verbiage, the "nub' of the commission's purpose is in the above quotation.

The commission was created during the regime of Gov. Edward F. Dunne, Democrat, who was a "home rule' and "municipal ownership" advocate. He signed the act creating the commission over the protest of Chicago's city council and other aldermanic bodies in various parts of the state. It was stated by the then governor that his purpose in urging the creation of such a commission was to give smaller communities in the state a means of having their public utilitiy rates fixed in a scientific manner.

Creation of the commission was not urged by a majority of the state's public service corporations, as some of the politicians charge who want to avoid telling the public he whole truth. Once the commission came into being the public service corporations were left no alternative but to bow to the law and come under the commission's jurisdiction.

Every ruling of the state commission has been upheld by the courts, state and federal. The United States supreme court, in a ruling, upheld the constitutionality of the commission, so there is left no doubt as to whether the commission is within its power in assuming and exercising entire jurisdiction over rates and service matters.

Within the last few months certain Chicago politicians, who are at war with Governor Lowden's state administration, have tried to place the public service corporations and the commission in an unfair light before the public. An impression has been sent broadcast that the state commission is a creation of the Lowden administration and that its creation was in response to a suggestion from the public service corporations.

Nothing can be further from the truth than such an impression. Governor Lowden and all other succeeding governors can do nothing else but continue the commission until the state legislature, which created it, repeals the act. As long as the act remains in force Governor Lowden and the chief executives who will follow him have no alternative. The commission is created by law, and while the law stands the commission will be with us, whether governors, mayors, city councils or public service corporations like it or not.

Another angle of the situation which some of the politicians use further to mislead the public, is the intimation that the commission arbitrarily fixes rates. It does nothing of the kind. Under the law the commission must fix rates just and reasonable alike to corporation and community. The commissioners would lay themselves open to impeachment proceedings if they did anything but this. If frates are fixed which a community believes are unfair and unreasonable to it, it can appeal from any ruling of the commission by going to the Sangamon county court, as the law creating the commission specifies. On the other hand if the commission was to give a ruling which would amount to confiscation of the plant and property of any public service corporation in the state, that corporation can appeal to the federal courts.

Nervous Breakdown

"I am so nervous it seems as though I should fly"—"My nerves are all on edge"—"I wish I were dead." How often have we heard these expressions or others quite as extravagant from some loved one who has been brought to this state by some female trouble which has slowly developed until the nerves can no longer stand up under it. No woman should allow herself to drift into this condition without giving that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

Read the Letters of These Two Women.

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back, lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."—Elizabeth Weaver, R. R. 2, North East, Md.

Minneapolis, Minn.—"I was run down and nervous, could not rest at night and was more tired in the morning than when I went to bed. I have two children, the youngest three months old and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children, and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."—Mrs. A. L. Miller, 2633 E. 24th St., Minneapolis, Minn.

Daily Market Report

WHEAT PRICES GO UP WITH A RUSH

CHICAGO, Sept. 9. — Wheat prices went up with a rush today owing to reduction of the government estimate of the 1920 spring crop. The advance however, was not well maintained, and the market closed unsettled, 1½ to 2c net higher with December $2.47 to $2.47¼ and March $2.43¾. Corn finished 1⅝c to 2⅝c down, oats unchanged to ⅜c higher and provisions at a rise of 10c to 40c.

At first there was heavy buying of future deliveries of wheat, most of the demand coming from houses with seaboard connections. Then came advices that foreign demand at the seaboard was poor and that much export business was unlikely unless a sharp rally in European exchange rates took place.

Corn advanced sharply at one time with wheat, but averaged lower, influenced mainly by the record breaking figures in the government report as to corn.

Oats were firm being regarded as low compared with other feed.

Export business together with high quotations on hogs lifted provisions.

INVESTMENTS WERE FACTOR IN MARKET

NEW YORK, Sept. 9.—The investment situation was a factor of paramount importance in the stock market today taking precedence over easier money credits and the more promising crop outlook.

Announcement of the new French loan which was oversubscribed before the opening of the books, was accepted as an indication that investors are eager to participate in attractive underwritings.

The only noteworthy drawback was again furnished by foreign exchange which continued for the most part, to move against European markets.

Out of town banks contributed to the enlarged supply of money on call, most of which was offered at 7 per cent, but relaxed to 6 per cent later. Short term loans in moderate sums were negotiated at 8½ per cent for prime collateral.

Shippings, oils, dividend paying rails and chemicals led the day's higher range of prices, maximum quotations being registered in the final half hour.

Steels and equipments were limited to gains of large fractions to almost 2 points, closing quotations in many instances, being the highest of the day.

Sales amounted to 450,000 shares.

Liberty bonds were irregular, but some of the internationals were stimulated by the success of the new French issue which rose a fraction over par on the curb.

Sales (par value) aggregated $8,850,000.

Daily Market Report

WHEAT PRICES GO UP WITH A RUSH

CHICAGO, Sept. 9. — Wheat prices went up with a rush today owing to reduction of the government estimate of the 1920 spring crop. The advance however, was not well maintained, and the market closed unsettled, 1½ to 2c net higher with December $2.47 to $2.47¾ and March $2.43¾. Corn finished 1¾c to 2¼c down, oats unchanged to ¾c higher and provisions at a rise of 10c to 40c.

At first there was heavy buying of future deliveries of wheat, most of the demand coming from houses with seaboard connections. Then came advices that foreign demand at the seaboard was poor and that much expert business was unlikely unless a sharp rally in European exchange rates took place.

Corn advanced sharply at one time with wheat, but averaged lower, influenced mainly by the record breaking figures in the government report as to corn.

Oats were firm being regarded as low compared with other feed.

Export business together with high quotations on hogs lifted provisions.

INVESTMENTS WERE FACTOR IN MARKET

NEW YORK, Sept. 9.—The investment situation was a factor of paramount importance in the stock market today taking precedence over easier money credits and the more promising crop outlook.

Announcement of the new French loan which was oversubscribed before the opening of the books, was accepted as an indication that investors are eager to participate in attractive underwritings.

The only noteworthy drawback was again furnished by foreign exchange which continued for the most part, to move against European markets.

Out of town banks contributed to the enlarged supply of money on call, most of which was offered at 7 per cent, but relaxed to 6 per cent later. Short term loans in moderate sums were negotiated at 8½ per cent for prime collateral.

Shippings, oils, dividend paying rails and chemicals led the day's higher range of prices, maximum quotations being registered in the final half hour.

Steels and equipments were limited to gains of large fractions to almost 2 points, closing quotations in many instances, being the highest of the day.

Sales amounted to 450,000 shares.

Liberty bonds were irregular, but some of the internationals were stimulated by the success of the new French issue which rose a fraction over par on the curb.

Sales (par value) aggregated $8,850,000.

A FEW FACTS ABOUT THE PYTHIAN HOME AT DECATUR

1. There are two homes. One for children in Decatur, the other for aged and dependent Pythians, their wives or widows, two miles north of this on the Bloomington road.

2. The home for children was begun in 1907, the contract being let October 16. Ground was broken October 22 by the Grand Chancellor. The cornerstone was laid by the grand lodge June 9, 1908. Dedicated June 9, 1910.

This building is 278x172 feet, distance around is about one-fourth of a mile. Height of main tower 82 feet. The smoke stack is 100 feet. Floor space 55,681 square feet. Building is fireproof thruout. There are 85 rooms. The cost for building and furnishing was about $150,000. There are now 56 children in the home.

3. The Knights of Pythias of Decatur, assisted by the citizens, bought 80 acres of land, laid out the east half and sold lots for enough to pay for the entire tract. The east half was given the grand lodge, Knights of Pythias, for the home. Also $25,000 in cash went with the site.

4. At first both children and adults were admitted. Later it was found necessary to have a separate home for the aged. This is located on a 40-acre tract purchased by the grand lodge for $13,000. Both homes are under the management of Superintendent Clifton Hatch.

5. The Decatur school district erected the Oglesby school and made it conform to the general appearance of this home. This was part of the agreement made in locating the home.

6. The annual expenses of the homes are about $50,000, the greater part of which is spent in Decatur.
